

My Favorite Subject

2 pages | 381 words

When I was at school my favorite class was Geography. I used to have an excellent teacher who made everything seem very interesting. I also enjoyed learning about many different things related to our lives such as where we live, how we are affected by weather, farming and other topics and how we can learn so much from rocks, trees and other items around us which can tell us about past events many thousands of years ago. I can distinctly remember many lessons about agriculture and how it was developed in many different regions of the world. The difference between farming needs in different parts of the world and how the produce could be exported from one country to another. I also remember learning about rock formations and how rivers can form valleys and erode rock, and the earth, over a long period of time and change the landscape. I thought it was fascinating at the time how you could learn so much about something which seemed to be so simple. My Geography classes made me look at everything differently. What I had previously seen as just a river or rock became something much more interesting when I realized how much information it could tell us and how many different aspects there were to them. Even now, I think I still look at things and think about what's beneath the surface, what's behind the visible parts, the parts we can't see or never think about. There's always so much more involved than what we can simply see everyday. Really, I think it was my favorite subject at school because it dealt with real things. I mean, we learned about mountains, rivers, countries, populations, social migration and many other things like that. You can see these things in life, it all seemed relevant. I can remember I didn't like Math much as a school subject because I couldn't relate it to everyday life. Solving all those mathematical problems didn't seem connected to real life. Another reason I liked Geography as a subject was because, as I said, my teacher was great. She made everything seem interesting and had an excellent way of explaining things to her students. The time always seemed to fly past in those classes because they were so interesting.
