

5 E Lesson Plan

Topic/Lesson: ENDOCRINE SYSTEM AND HOMEOSTASIS

I. Objectives:

At the end of the period, 85% of the students can:

- Define operationally endocrine system and homeostasis
- Enumerate and discuss the types of glands
- Explain the importance and the types of hormones present on different glands
- Perform the activity on plant hormones in relation to endocrine system in human body
- Relate and appreciate the hormonal activities and its importance in life

II. Materials

Video presentation, worksheet

PROCEDURE	TEACHERS' ACTIVITY	STUDENTS' ACTIVITY
ENGAGE Strategies: Inquiry, Cold-call	- The teacher will capture the students' interest by asking what is endocrine system? - what is hormone? - give atleast one main component of endocrine system and its location. - provide video presentation on endocrine system disorder.	- Students think about the question and will provide the answer of one main component of endocrine system and its location in the human body. - Students will participate and focus on the video presentation.
EXPLORE Strategies: Inquiry, discovery, Cooperative, Cold-call	- The students will be group and will arrange and label the different glands. - the students will be ask to enumerate or give a list of hormones found on different glands (if any)	- Students will fill in any of the glands based on picture and will present their answers on board. - Students will provide an answer of different hormones found on different glands.
EXPLAIN Strategies: Cooperative, discovery	Introduce the topic: - different functions of specific glands and its secreted hormones	- Students participate on class discussion
EVALUATE Strategies: Cooperative	Class discussion: - difference between exocrine and endocrine glands - With what other systems does the	- Students participate on class discussion

Sample Lesson Plan For The Endocrine System

**Kenneth Raymond Miller, Prentice Hall
(School Division)**

Sample Lesson Plan For The Endocrine System:

Advanced Pre-Med Studies Parent Lesson Plan, 2013-08-01 Advanced Pre Med Studies Course Description Semester 1

From surgery to vaccines man has made great strides in the field of medicine Quality of life has improved dramatically in the last few decades alone and the future is bright But students must not forget that God provided humans with minds and resources to bring about these advances A biblical perspective of healing and the use of medicine provides the best foundation for treating diseases and injury In *Exploring the History of Medicine* author John Hudson Tiner reveals the spectacular discoveries that started with men and women who used their abilities to better mankind and give glory to God The fascinating history of medicine comes alive in this book providing students with a healthy dose of facts mini biographies and vintage illustrations It seems that a new and more terrible disease is touted on the news almost daily The spread of these scary diseases from bird flu to SARS to AIDS is a cause for concern and leads to questions such as Where did all these germs come from and how do they fit into a biblical world view What kind of function did these microbes have before the Fall Does antibiotic resistance in bacteria prove evolution How can something so small have such a huge deadly impact on the world around us Professor Alan Gillen sheds light on these and many other questions in *The Genesis of Germs* He shows how these constantly mutating diseases are proof for devolution rather than evolution and how all of these germs fit into a biblical world view Dr Gillen shows how germs are symptomatic of the literal Fall and Curse of creation as a result of man's sin and the hope we have in the coming of Jesus Christ

Semester 2 *Body by Design* defines the basic anatomy and physiology in each of 11 body systems from a creationist viewpoint Every chapter explores the wonder beauty and creation of the human body giving evidence for creation while exposing faulty evolutionist reasoning Special explorations into each body system look closely at disease aspects current events and discoveries while profiling the classic and contemporary scientists and physicians who have made remarkable breakthroughs in studies of the different areas of the human body Within *Building Blocks in Life Science* you will discover exceptional insights and clarity to patterns of order in living things including the promise of healing and new birth in Christ Study numerous ways to refute the evolutionary worldview that life simply evolved by chance over millions of years The evolutionary worldview can be found filtered through every topic at every age level in our society It has become the overwhelmingly accepted paradigm for the origins of life as taught in all secular institutions This dynamic education resource helps young people not only learn science from a biblical perspective but also helps them know how to defend their faith in the process

Navy Hospital Corpsman Publications Combined: Personnel Qualification Standard (PQS) For Hospital Corpsman (2019) & Sick Call Screener Course Guide Plus Lesson Plan (2018) U.S. Naval Education and Training Command, Over 1 300 total pages
