Pizza

For School Lunch

Our school lunch menu needs a makeover. Many students think school lunch tastes bad, and they either don't buy it, or they throw it away. With the growing problem of overweight kids, the school needs to make a new lunch menu with healthier, tastier options. I think the school should consider an option that will be tasty, healthy, and easy: a daily pizza option.

Almost every kid loves pizza. If you ask kids, they'll tell you that pizza tastes great and is easy to eat. If the school had a pizza option, students would buy hot lunch more often. They would also eat more of the lunch, so less food would go to waste. The school lunch program could make a lot more money.

Even though pizza tastes great, it can also be a very healthy food. In addition to a crust made with whole-wheat dough, low-fat cheese pizza or even pizza without cheese could be offered. Today, when the school serves broccoli or spinach, most of it goes in the garbage. But, kids will eat almost any kind of vegetables—and even some fruits—if they're on pizza.

Pizza can also be very fast and easy to make, which would be good for our cafeteria staff. The staff could make the dough and sauce ahead of time. They could also buy frozen dough and premade sauce. Then, all the staff needs to do is add toppings, cheese, and bake it. You also eat pizza with your hands, which means the staff has less silverware to wash.

Some people will probably object to the idea of a pizza option because pizza is often considered "junk food" instead of a regular, wholesome meal. Most delivery or take-out pizza is made with lots of fattening cheese and unhealthy toppings. But pizza can also be made with healthy ingredients, and it is always easy to make. The school should add a daily pizza option to the new lunch menu. Serving pizza isn't just great for the students, but it will also benefit the school lunch program.

Sample Essays For Elementary Students

adaptive personalized literacy instruction to students of all ages These accessible comprehensive chapters written by leading researchers who have developed systems and strategies for classrooms introduce effective technologies for reading comprehension and writing skills **The Fundamentals of (Re)designing Writing Units** Kathy Tuchman

Glass,2016-10-31 Prepare students to take on any writing challenge including district and state mandated literacy tests Perfect for teachers curriculum designers and literary coaches this title provides guidance for designing new writing units and revising existing ones across content areas for grades 5 12 You ll discover practical strategies and best practices for teaching skills in drafting editing revising peer feedback assessment and student collaboration Consistent and engaging lesson design based on these principles will prepare students to take on any writing challenge including district and state mandated literacy tests Benefits Examine the stages of the writing process and the benefits of teaching students to work through them Assess the particular importance of the feedback stage of students writing process Study the components and rationale of the backward planning approach to unit design Gain access to downloadable templates checklists rubrics and student activities useful for guiding and assessing students in their writing Explore comprehensive lists of online resources and tools that educators and students may use in lessons aimed at writing Contents Introduction 1 The Importance of Writing to Learn 2 The Stages of the Writing Process 3 The Backward Planning Approach to Unit Design 4 Culminating Assessments and Criteria for Success 5 Effective Lesson Design The Gradual Release of Responsibility Model 6 Launch the Unit Epilogue

Handbook of Reading Research, Volume II Rebecca Barr,Michael L. Kamil,Peter B. Mosenthal,P David Pearson,2016-11-18 A comprehensive overview of important contemporary issues in the field of reading research from the mid 1980s to mid 1990s this well received volume offers readers an examination of literacy through a variety of lenses some permitting microscopic views and others panoramic views A veritable who s who of specialists in the field chapter authors cover current methodology as well as cumulative research based knowledge Because it deals with society and literacy the first section provides the broadest possible view of literacy The second section defines the range of activities culturally determined to be a part of the enterprise known as literacy The third focuses on the processes that individuals engage in when they perform the act of reading The fourth section visits the environment in which the knowledge that comprises literacy is passed on from one generation to the next The last section an epilogue to the whole enterprise of reading research provides apt philosophical reflection Desegregation State Annie S. Mendenhall,2022-04-15 The only book length study of

the ways that postsecondary desegregation litigation and policy affected writing instruction and assessment in US colleges Desegregation State provides a history of federal enforcement of higher education desegregation and its impact on writing programs from 1970 to 1988 Focusing on the University System of Georgia and two of its public colleges in Savannah one a historically segregated white college and the other a historically Black college Annie S Mendenhall shows how desegregation enforcement promoted and shaped writing programs by presenting literacy remediation and testing as critical to

desegregation efforts in southern and border states Formerly segregated state university systems crafted desegregation plans that gave them more control over policies for admissions remediation and retention These plans created literacy requirements admissions and graduation tests remedial classes and even writing centers and writing across the curriculum programs that reshaped the landscape of college writing instruction and denied the demands of Black students civil rights activists and historically Black colleges and universities for major changes to university systems This history details the profound influence of desegregation and resistance to desegregation on the ways that writing is taught and assessed in colleges today Desegregation State provides WPAs and writing teachers with a disciplinary history for understanding racism in writing assessment and writing programs Mendenhall brings emerging scholarship on the racialization of institutions into the field showing why writing studies must pay more attention to how writing programs have institutionalized racist literacy ideologies through arguments about student placement individualized writing instruction and writing assessment

Handbook of Academic Learning Gary D. Phye, 1997-01-08 The Handbook of Academic Learning provides a comprehensive resource for educational and cognitive psychologists as well as educators themselves on the mechanisms and processes of academic learning Beginning with general themes that cross subject and age level the book discusses what motivates students to learn and how knowledge can be made personal for better learning and remembering Individual chapters identify proven effective teaching methods for the specific domains of math reading writing science and critical problem solving how students learn within those domains and how learning can be accurately assessed for given domains and age levels The Handbook takes a constructivist perspective to academic learning emphasizing the construction of personal knowledge of an academic nature Constructivism within the context of learning theory is viewed as involving an active learner that constructs an academic knowledge base through the development of cognitive strategies and metacognition The book discusses the development of basic literacy skills that provide the foundation for higher order thinking and problem solving Constructivism recognizes the social dimension of classroom learning and emphasizes the motivational elements of self regulation and volition as essential learner characteristics Written by authors who have first hand experience with both theory development and the development of authentic classroom instructional techniques the Handbook empowers educators to develop implement and field test authentic instructional practices at their school site The book provides a review of the literature theory research and skill techniques for effective teaching and learning Identifies effective teaching with specific techniques Covers elementary school through high school Discusses teaching methods for all main subject areas reading writing math science and critical thinking Identifies how students learn to learn Reviews theory research techniques and assessment Contains field tested examples for the educational professional at the school site Provides a resource for staff development

Looking Like a Language, Sounding Like a Race Jonathan Rosa, 2019 Looking like a Language Sounding like a Race examines the emergence of linguistic and ethnoracial categories in the context of

Latinidad The book draws from more than twenty four months of ethnographic and sociolinguistic fieldwork in a Chicago public school whose student body is more than 90% Mexican and Puerto Rican to analyze the racialization of language and its relationship to issues of power and national identity It focuses specifically on youth socialization to U S Latinidad as a contemporary site of political anxiety raciolinguistic transformation and urban inequity Jonathan Rosa s account studies the fashioning of Latinidad in Chicago s highly segregated Near Northwest Side he links public discourse concerning the rising prominence of U S Latinidad to the institutional management and experience of raciolinguistic identities there Anxieties surrounding Latinx identities push administrators to transform at risk Mexican and Puerto Rican students into young Latino professionals This institutional effort which requires students to learn to be and importantly sound like themselves in highly studied ways reveals administrators attempts to navigate a precarious urban terrain in a city grappling with some of the nation s highest youth homicide dropout and teen pregnancy rates Rosa explores the ingenuity of his research participants responses to these forms of marginalization through the contestation of political ethnoracial and linguistic borders

Automated Essay Scoring Mark D. Shermis, Jill C. Burstein, 2003-01-30 This new volume is the first to focus entirely on automated essay scoring and evaluation It is intended to provide a comprehensive overview of the evolution and state of the art of automated essay scoring and evaluation technology across several disciplines including education testing and measurement cognitive science computer science and computational linguistics The development of this technology has led to many questions and concerns Automated Essay Scoring attempts to address some of these questions including How can automated scoring and evaluation supplement classroom instruction How does the technology actually work Can it improve students writing How reliable is the technology How can these computing methods be used to develop evaluation tools What are the state of the art essay evaluation technologies and automated scoring systems Divided into four parts the first part reviews the teaching of writing and how computers can contribute to it Part II analyzes actual automated essay scorers including e rater™ Intellimetric and the Intelligent Essay Assessor The third part analyzes related psychometric issues and the final part reviews innovations in the field This book is ideal for researchers and advanced students interested in automated essay scoring from the fields of testing and measurement education cognitive science language and computational linguistics

Student and Teacher Writing Motivational Beliefs Steve Graham, Gary A. Troia, Gustaf Bernhard Uno Skar, 2024-06-21 The study of students motivational beliefs about writing and how such beliefs influence writing has increased since the publication of John Hays 1996 model of writing This model emphasized that writers motivational beliefs influence how and what they write Likewise increased attention has been devoted in recent years to how teachers motivational beliefs about writing especially their efficacy to teach writing impact how writing is taught and how students progress as writers As a result there is a need to bring together in a Research Topic studies that examine the role and influence of writing beliefs Historically the psychological study of writing has focused on what students write or the

processes they apply when writing Equally important but investigated less often are studies examining how writing is taught and how teachers efforts contribute to students writing What has been less prominent in the psychological study of writing are the underlying motivational beliefs that drive or inhibit students writing or serve as catalysts for teachers actions in the classroom when teaching writing This Research Topic will bring together studies that examine both students and teachers motivational beliefs about teaching writing This will include studies examining the operation of such beliefs how they develop cognitive and affective correlates how writing motivational beliefs can be fostered and how they are related to students writing achievement By focusing on both students and teachers beliefs the Research Topic will provide a more nuanced and broader picture of the role of motivation beliefs in writing and writing instruction This Research Topic includes papers that address students motivational beliefs about writing teachers motivational beliefs about writing or teaching writing Students motivational beliefs about writing include beliefs about the value and utility of writing writing competence attitudes toward writing goal orientation motives for writing identity epistemological underpinnings writing and attributions for success failure as examples Teacher motivational include these same judgements as well as beliefs about their preparation and their students competence and progress as writers to provide additional examples This Research Topic is interested in papers that examine how such beliefs operate develop are related to other cognitive and affective variables how they are impacted by instruction and how they are related to students writing performance Submitted studies can include original research both quantitative qualitative or mixed methods meta analysis and reviews of the literature
