young woman urgently demands in Virginia Woolf's novel *The Waves*. It is the 1930s, war and death are in the air but her question was asked again and again in the course of a century where things changed fast and changed all the time. The century brought world wars, revolutions, automobiles, movies, and the internet, votes for women, death camps. The century brought questions. Novelists in the twentieth century had a question of their own: how can we write a novel as startling and unforeseen as the world we live in? Again and again they did, transforming the novel as the century remade the world. Imagine the history of the twentieth-century novel recounted with the urgency and intimacy of a novel. That's what Edwin Frank, the legendary editor who has run the New York Review Books publishing imprint since its inception, does in *Stranger than Fiction*. With penetrating insight and originality, Frank introduces us to books, some famous, some little known, from the whole course of the century and from around the world. Starting with Dostoevsky's *Notes from Underground* of 1864, Frank shows how its twitchy, self-undermining and never-satisfied narrator established a voice that would echo through the coming century. He illuminates the political vision of H.G. Wells's science fiction, Colette and André Gide's subversions of traditional gender roles, and Gertrude Stein's untethering of the American sentence. He describes the monumental ambition of books such as *Mrs Dalloway*, *The Magic Mountain*, and *The Man Without Qualities* to rebuild a world of human possibility upon the ruins of World War I, and explores how Japan's Natsume Soseki and Nigeria's Chinua Achebe broke open European models to reflect their own distinct histories and experience. Here too are Vasily Grossman, Anna Banti, and Elsa Morante reckoning in specific ways with the traumas of World War II, while later chapters range from Marguerite Yourcenar and V.S. Naipaul to Gabriel García Márquez and W.G. Sebald. The story as a whole is one of fearless, often reckless exploration as well as unfathomable desolation. Throughout we discover the power of the novel to reinvent itself to find a way for itself to live differently. *Stranger than Fiction* offers a new vision of the history and art of the novel and of a dark and dazzling time in whose light and shadow we still stand.

The Oulipo and Modern Thought Dennis Duncan, 2019-07-08

The impact of the Oulipo. Ouvroir de Litterature Potentielle, one of the most important groups of experimental writers of the late twentieth century, is still being felt in contemporary literature criticism and theory both in Europe and the US. Founded in 1960 and still active today, this Parisian literary workshop has featured among its members such notable writers as Italo Calvino, Georges Perec, and Raymond Queneau, all sharing in its light-hearted, slightly boozy, bonhomie, the convivial antithesis of the fractious, volatile coterie of the early twentieth-century avant-garde. For the last fifty years, the Oulipo has undertaken the same simple goal: to investigate the potential of constraints in the production of literature, that is, formal procedures such as anagrams, acrostics, lipograms (texts which exclude a certain letter), and other strange and complex devices. Yet far from being mere parlour games, these methods have been frequently used as part of a passionate, though sometimes satirical, involvement with the major intellectual currents of the mid-twentieth century: Structuralism, psychoanalysis, Surrealism, analytic philosophy, all come under discussion in the group's meetings, and all find their way in the group's exercises in ways that, while often ironic, are

also highly informed Using meeting minutes correspondence and other material from the Oulipo archive at the Bibliotheque nationale de France The Oulipo and Modern Thought shows how the group have used constrained writing as means of puckish engagement with the debates of their peers and how as the broader intellectual landscape altered so too would the group s conception of what constrained writing can achieve

Reading Games Kimberly Bohman-Kalaja,2007 In Reading Games Kimberly Bohman Kalaja guides us through an entertaining and instructive exploration of a neglected genre of post modernism the Play Text Pioneered by authors such as Flann O Brien Samuel Beckett and Georges Perec Bohman Kalaja s book provides a fresh interpretive approach to understanding the Play Text Providing insightful analysis of the game and play theories and drawing from a wide range of ideas from the thinking of the great philosophers to basic chess and poker strategies Reading Games makes the world of experimental fiction accessible by unraveling step by step the innovative strategies of those authors who play reading games

The Architecture of Error Francesca Hughes,2014-11-07 Why the rise of redundant precision in architecture and the accompanying fear of error are key to understanding the discipline s needs anxieties and desires When architects draw even brick walls to six decimal places with software designed to cut lenses it is clear that the logic that once organized relations between precision and material error in construction has unraveled Precision already a promiscuous term seems now to have been uncoupled from its contract with truthfulness Meanwhile error and the always political space of its dissent has reconfigured itself In The Architecture of Error Francesca Hughes argues that behind the architect s acute fetishization of redundant precision lies a special fear of physical error What if we were to consider the pivotal cultural and technological transformations of modernism to have been driven not so much by the causes its narratives declare she asks as by an unspoken horror of loss of control over error material life and everything that matter stands for Hughes traces the rising intolerance of material vagaries from the removal of ornament to digitalized fabrication that produced the blind rejection of organic materials the proliferation of material testing and the rhetorical obstacles that blighted cybernetics Why is it she asks that the more we cornered physical error the more we feared it Hughes s analysis of redundant precision exposes an architecture of fear whose politics must be called into question Proposing error as a new category for architectural thought Hughes draws on other disciplines and practices that have interrogated precision and failure citing the work of scientists Nancy Cartwright and Evelyn Fox Keller and visual artists Gordon Matta Clark Barbara Hepworth Rachel Whiteread and others These non architect practitioners she argues show that error need not be excluded and precision can be made accountable

Is That a Fish in Your Ear? David Bellos,2011-10-11 A New York Times Notable Book for 2011 One of The Economist s 2011 Books of the Year People speak different languages and always have The Ancient Greeks took no notice of anything unless it was said in Greek the Romans made everyone speak Latin and in India people learned their neighbors languages as did many ordinary Europeans in times past Christopher Columbus knew Italian Portuguese and Castilian Spanish as well as the classical languages But today we all use translation to cope with the diversity

of languages Without translation there would be no world news not much of a reading list in any subject at college no repair manuals for cars or planes we wouldn't even be able to put together flat pack furniture Is That a Fish in Your Ear ranges across the whole of human experience from foreign films to philosophy to show why translation is at the heart of what we do and who we are Among many other things David Bellos asks What's the difference between translating unprepared natural speech and translating Madame Bovary How do you translate a joke What's the difference between a native tongue and a learned one Can you translate between any pair of languages or only between some What really goes on when world leaders speak at the UN Can machines ever replace human translators and if not why But the biggest question Bellos asks is this How do we ever really know that we've understood what anybody else says in our own language or in another Surprising witty and written with great joie de vivre this book is all about how we comprehend other people and shows us how ultimately translation is another name for the human condition *Metafolklore* Alexander V. Avakov, 2012-12-11 The book is organized in Folklore Units Each Folklore Unit has Context and may have one or more Metacontexts with citations of works of great philosophers or writers hence the title of the book is Metafolklore The book covers the life of immigrants from the USSR in the U S remembers life in Russia and gradually concentrates on the modus operandi of the KGB FBI CIA NYPD NSA ECHELON Foreign Intelligence Surveillance Court AI and ISI It covers frontiers of legal theory of surveillance What distinguishes this book is the intensely personal account of the events and issues [Paths to Contemporary French Literature, Volume 1](#) John Taylor, 2005-04-27 Although the great French novelists of the last two centuries are widely read in America there is a widespread notion that little of importance has happened in French literature since the heyday of Sartre Camus and the nouveau roman Some might argue that even well read Americans are ignorant about what is happening in European literature generally Certainly there has never been so few translations of foreign books in the United States or so little coverage of foreign writers Curious American readers need new up to date information and analyses about what is happening elsewhere Paths to Contemporary French Literature is a stimulating and much needed guide to the major currents of one of the world's great literatures This critical panorama of contemporary French literature introduces English language readers to over fifty important writers and poets many of whom are still little known outside of France Emphasizing authors who are admired by their peers as opposed to those with overnight reputations John Taylor offers a compelling insider's view The pioneering essays included in this book offer incisive analyses of the ideas motivating current writing and delve into a writer's or poet's entire output Although some names may be familiar Marguerite Duras Hélène Cixous Philippe Jaccottet Henri Michaux the reader obtains fresh reappraisals of their seminal work Especially noteworthy however are Taylor's lively introductions to many other key writers who either have not yet crossed the English Channel let alone the Atlantic Combating the notion that French literature is overtly intellectual inaccessible or interested only in formal experimentation Taylor shows that many French writers are instead acutely inquisitive about the outside world shrewd observers of reality

even very funny Although not conceived as a reference book the volume possesses some qualities of a reference work a good bibliography reliable dates and biographical facts *Paths to Contemporary French Literature* will be of interest to students of French literature and culture literary scholars and readers of contemporary fiction and poetry Transcultural Joyce Karen Lawrence, 1998-08-13 In *Transcultural Joyce* a team of leading international scholars assess the afterlife of James Joyce and his writings within a multinational context How does Joyce haunt the works of later writers in diverse literary traditions How well does he translate from one culture and language to another This book considers Joyce's reincarnations in texts from Latin America Europe and South Asia *Transcultural Joyce* provides a fresh theoretical examination of conventional notions such as influence and translation and asks how Joyce is imported across particular cultural boundaries As a canonical modernist and colonial subject Joyce inhabits a borderline position that complicates his reception and revision by later writers This book accounts for his cultural place as specifically Irish and more postcolonial than previous studies have acknowledged Scholars and translators of Joyce also consider the formidable task of translating his work for a global audience *A Muse and a Maze* Peter Turchi, 2014-11-11 With his characteristic talent for finding the connections between writing and the stuff of our lives most notably in his earlier hit *Maps of the Imagination The Writer as Cartographer* Peter Turchi ventures into new and even more surprising territory In *A Muse and a Maze* Turchi draws out the similarities between writing and puzzle making and its flip side puzzle solving He teases out how mystery lies at the heart of all storytelling And he uncovers the magic the creation of credible illusion that writers share with the likes of Houdini and master magicians In Turchi's associative narrative we learn about the history of puzzles their obsessive quality and that Benjamin Franklin was a devotee of an ancient precursor of sudoku called Magic Squares Applying this rich backdrop to the requirements of writing Turchi reveals as much about the human psyche as he does about the literary imagination and the creative process With the goal of giving writers new ways to think about their work and readers new ways to consider the books they encounter *A Muse and a Maze* suggests ways in which every piece of writing is a kind of puzzle The work argues that literary writing is defined at least in part by its embrace of mystery offers tangrams as a model for the presentation of complex characters compares a writer's relationship to his or her narrator to magicians and wizards offers the maze and the labyrinth as alternatives to the more common notion of the narrative line and concludes with a discussion of how readers and writers like puzzle solvers not only tolerate but find pleasure in difficulty While always balancing erudition with accessibility Turchi examines the work of writers as various as A A Milne Dashiell Hammett Truman Capote Anton Chekhov Alison Bechdel F Scott Fitzgerald Antonia Nelson Vladimir Nabokov Charles D Ambrosio Michael Ondaatje Alice Munro Thomas Bernhard and Mark Twain elaborating and illuminating ways in which their works expand and deliver on the title's double entendre *A Muse and a Maze* With 100 images that range from movie stills from *Citizen Kane* and *Butch Cassidy and the Sundance Kid* to examples of sudokus crosswords and other puzzles from Norman Rockwell's famous triple self portrait to artwork by Charles Richie and from
