Molecular Diagnostic PCR Handbook Gerrit J. Viljoen, Louis H. Nel, John R. Crowther, 2005-07-19 PREFACE The Joint FAO IAEA Division of Nuclear Techniques in Food and Agriculture is involved in agricultural research and development and assists Member States of FAO and IAEA in improving strategies to ensure food security through the use of nuclear techniques and related biotechnologies where such techniques have a valuable and often unique role In particular molecular diagnostic methods have rapidly evolved in the past twenty years since the advent of the Polymerase Chain Reaction PCR They are used in a wide range of agricultural areas such as improving soil and water management producing better crop varieties diagnosing plant and animal diseases controlling insect pests and improving food quality and safety The uses of nucleic acid directed methods have increased significantly in the past five years and have made important contributions to disease control country programmes for improving national and international trade These developments include the more routine use of PCR as a diagnostic tool in veterinary diagnostic laboratories However there are many problems associated with the transfer and particularly the application of this technology These include lack of consideration of the establishment of quality assured procedures the required set up of the laboratory and the proper training of staff This can lead to a situation where results are not assured This book gives a comprehensive account of the practical aspects of PCR and strong consideration is given to ensure its optimal use in a laboratory environment This includes the setting up of a PCR laboratory Good Laboratory Practice and standardised of PCR protocols

Functional Genomics Stephen P. Hunt, Frederick Livesey, 2000 With the complete genomes of many organisms now available and the first draft of the human genome imminent there is an increasing demand from researchers in a range of disciplines for techniques that will allow them to utilize these resources in their own research This book provides a comprehensive treatment of the range of methods available for gene and protein expression profiling in a variety of systems These include large scale methods such as cDNA microarrays serial analysis of gene expression SAGE and proteomics and also methods suitable for non specialist laboratories such as differential display and suppression subtraction hybridization In all cases the chapters have been written by the developers of these methods or experienced users and include detailed protocols to facilitate the introduction of these methods to the readers laboratories

The Nidoviruses Ehud Lavi, Susan R. Weiss, Susan T. Hingley, 2012-12-06 In 1996 the International Committee for Taxonomy of Viruses ICTV recognized the name Nidovirales as the formal name for Coronaviridae and Arteriviridae In recognition of this change and in response to the wishes of our colleagues we named this meeting for the first time The International Symposium of Nidoviruses The meeting in the wooded environment of Lake Harmony Pennsylvania provided a stimulating opportunity for assessing the progress made in the field since the last meeting in Segovia Spain in 1997 Over 150 scientists from academia and industry attended the meeting The meeting hosted senior members of the Nidovirus community some of whom have been studying the subject for over 20 years as well as younger

scientists the next generation of Nidovirologists The traditional informal format the shared meals the social activities and the relatively inexpensive venue made the meeting a popular adventure In her opening remarks Susan Weiss showed pictures from previous meetings reminding us how young we used to look Neal Nathanson was our keynote speaker at the opening night giving an overview on how viral pathogenesis studies helped in shaping the evolution of viral research and vaccine development The scientific program of the meeting was divided into 9 sessions including 10 keynote presentations The meeting opened with a session on epidemiology evolution and genome structure Sasha Gorbalenya shared with us insights gained from comparative sequence analysis emphasizing the unifying traits among nidoviruses but also pointed out the remaining black holes

Manual of Industrial Microbiology and Biotechnology Arnold L. Demain, Julian E.

Davies, Ronald M. Atlas, 1999 The editors have enlisted a broad range of experts including microbial ecologists physiologists geneticists biochemists molecular biologists and biochemical engineers who offer practical experience not found in texts and journals This comprehensive perspective makes MIMB a valuable how to resource the structure of which resembles the sequence of operation involved in the development of a commercial biological process and product

CDNA Preparation and Characterization Sherman M. Weissman, 1999-05-17 Knowledge of mRNA structure genomic location and patterns of expression must be converted into information regarding the function of the encoded proteins Each gene can be the subject

of years of intensive study Nevertheless a number of methods are being developed that use cDNA to predict properties or permit the selective isolation of cDNAs encoding proteins with certain general properties such as subcellular location The technology in this field is rapidly evolving and these contributions represent a snapshot in time of the number of currently available and useful approaches to the problems referred to above
