

Student Exploration: Populations and Samples

Background: Frequency distributions, normal distribution, population, sample

Prior Knowledge: Students should know what a normal distribution is.

1. **Frequency distribution:** A frequency distribution is a table or graph that shows the frequency of each value in a data set. The frequency of a value is the number of times that value occurs. The frequency distribution shows the frequency of each value in a data set.

2. How would you describe the shape of this distribution?

Normal distribution is a type of continuous probability distribution that is symmetric and bell-shaped.

3. In the above graph on right, identify what you think the frequency distribution might look like if the data is skewed right. (Sketch a distribution curve on the right side of the graph.)
