Growing up in a Digital World - Social and Cognitive Implications Mikael Heimann, Adriana Bus, Rachel Barr, 2021-11-30

The Laws of Robots Ugo Pagallo, 2013-05-16 This book explores how the design construction and use of robotics technology may affect today's legal systems and more particularly matters of responsibility and agency in criminal law contractual obligations and torts By distinguishing between the behaviour of robots as tools of human interaction and robots as proper agents in the legal arena jurists will have to address a new generation of hard cases General disagreement may concern immunity in criminal law e.g. the employment of robot soldiers in battle personal accountability for certain robots in contracts e.g. robo traders much as clauses of strict liability and negligence based responsibility in extra contractual obligations e.g. service robots in tort law Since robots are here to stay the aim of the law should be to wisely govern our mutual relationships

Androids, Cyborgs, and Robots in Contemporary Culture and Society Thompson, Steven John, 2017-09-13 Mankind's dependence on artificial intelligence and robotics is increasing rapidly as technology becomes more advanced Finding a way to seamlessly intertwine these two worlds will help boost productivity in society and aid in a variety of ways in modern civilization Androids Cyborgs and Robots in Contemporary Culture and Society is an essential scholarly resource that delves into the current issues methodologies and trends relating to advanced robotic technology in the modern world Featuring relevant topics that include STEM technologies brain controlled androids biped robots and media perception this publication is ideal for engineers academicians students and researchers that would like to stay current with the latest developments in the world of evolving robotics

Growing Up Postmodern Ronald Strickland, 2002-06-25 This collection takes its inspiration from Paul Goodman's *Growing Up Absurd* a landmark critique of American culture at the end of the 1950s Goodman called for a revival of social investment in urban planning public welfare workplace democracy free speech racial harmony sexual freedom popular culture and education to produce a society that could inspire young people and an adult society worth joining In postmodernity Goodman's enlightenment era vision of social progress has been judged obsolete For many postmodern critics subjectivity is formed and expressed not through social investment but through consumption the freedom to consume has replaced political empowerment But the power to consume is distributed very unevenly and even for the affluent it never fulfills the desire produced by the advertising industry The contributors to this volume focus on adverse social conditions that confront young people in postmodernity such as the relentless pressure to consume social disinvestment in education harsh responses to youth crime and the continuing climate of intolerance that falls heavily on the young In essays on education youth crime counseling protest movements fiction identity formation and popular culture the contributors look for moments of resistance to the subsumption of youth culture under the logic of global capitalism

Robots, Ethics and the Future of Jobs Sean McDonagh, 2021-07-21 I love my robot lawn mowers my laptop wifi Google Facetime Whatsapp and the possibility of drone postal deliveries and more Yet worries

nag about being overwhelmed by an artificial intelligence revolution whose ethical and moral parameters are less clear than its rampant profiteering from and monetising of your lives and mine This hugely informative book shakes us out of our massage armchairs and demands that we engage immediately with these galloping advances so we can shape them to the benefit of the many and not leave them to the enrichment of the few at the awful cost of the impoverishment of swathes of humanity Mary McAleese former President of Ireland Robots Ethics and The Future of Jobs is a wakeup call for political civic media and church leaders urging a response to the deepening and accelerating pace of technological change and its potential consequences Artificial Intelligence robotics drones the internet of things and 3D printing are the building blocks of the 4th industrial revolution These technologies offer great potential but also carry real risks and are reaching into every corner of our lives civilian and military Who will win and who will lose Who will set the rules and the ethical boundaries within which they should develop and operate Will the displaced be included if so how or ignored and if so with what political social and economic consequences That these questions cannot be avoided and should not be postponed and that we do not need to wait for change to happen because it is already upon us are central messages of this thought provoking text Pat Cox former President European Parliament Growing up Perfect Lawrence Caplan, 2022-08-02 A young boy his troubled but loving mother and their shared obsession with the 1970 s Miami Dolphins
