Voltaire,1925 **The Literature of Egypt and the Soudan from the Earliest Times to the Year 1885 [i.e. 1887]**

Inclusive Prince Ibrahim-Hilmy (son of Ismail, Khedive of Egypt),1887 Thinking About Tears Marco Menin,2022-07-28 A crucial period for the birth of the modern subject France's long eighteenth century approximately 1650-1820 was an era marked by the formulation of a new aesthetic and ethical code revolving around the intensification of emotions and the hyperbolic use of weeping Precisely because tears are not a simple biological fact but rather hang suspended between natural immediacy on one side and cultural artifice on the other the analysis of crying came to represent an exemplary testing ground for investigations into the enigmatic relations binding the realm of physiology to that of psychology Thinking About Tears explores how the link between tears and sensibility in France's long eighteenth century helps shed light on the process through which the European emotional lexicon has been built from viewing tears as governed by the sphere of passions and feelings thinkers began to view crying as first a matter of sensibility and then of sensiblerie a pathological excess of sensibility thereby presupposing an intimate connection with the category of sentiments For this reason this volume examines not only or even primarily the actual emotion of crying but also the attempt to think about and explain this feeling Drawing on a wide range of early modern philosophical medical religious and literary texts including moral treatises on the passions medical textbooks letters life writings novels and stage plays Thinking About Tears reveals another side to a period that has too often been saddled with the cursory label of the age of reason *White Knights Library* Robert Harding Evans,2014-05-22 Reissued here together the two parts of the 1819 sale catalogue for one of the period's grandest libraries with annotations about prices and purchasers Romans Et Contes de M. de Voltaire. of 3; Voltaire,2018-04-20 The 18th century was a wealth of knowledge exploration and rapidly growing technology and expanding record keeping made possible by advances in the printing press In its determination to preserve the century of revolution Gale initiated a revolution of its own digitization of epic proportions to preserve these invaluable works in the largest archive of its kind Now for the first time these high quality digital copies of original 18th century manuscripts are available in print making them highly accessible to libraries undergraduate students and independent scholars Western literary study flows out of eighteenth century works by Alexander Pope Daniel Defoe Henry Fielding Frances Burney Denis Diderot Johann Gottfried Herder Johann Wolfgang von Goethe and others Experience the birth of the modern novel or compare the development of language using dictionaries and grammar discourses The below data was compiled from various identification fields in the bibliographic record of this title
