Motivating Change: Sustainable Design and Behaviour in the Built Environment Robert Crocker, Steffen Lehmann, 2013-07-24 Today's most pressing challenges require behaviour change at many levels from the city to the individual. This book focuses on the collective influences that can be seen to shape change. Exploring the underlying dimensions of behaviour change in terms of consumption, media, social innovation and urban systems, the essays in this book are from many disciplines including architecture, urban design, industrial design and engineering, sociology, psychology, cultural studies, waste management and public policy. Aimed especially at designers and architects, *Motivating Change* explores the diversity of current approaches to change and the multiple ways in which behaviour can be understood as an enactment of values and beliefs, standards and habitual practices in daily life and more broadly in the urban environment.

London After Recession Iain MacRury, 2016-05-06 The City has long been the main generator of London's wealth and needless to say the impact of the Economic Crisis in the recent years on the City has greatly affected the wider urban and surrounding region, not to say country as a whole. This book examines the impact of the recession and discusses London's future trajectory as an entrepreneurial city and capital of the United Kingdom. While recognising the enduring capacity of London to reinvent itself from being the centre of a vast Empire to becoming a global centre for financial and business services, contributors evaluate different dimensions of the city's current and future development through analyses derived from sociological, economic, cultural and urban studies perspectives.

The Great Ormond Street Hospital Manual of Children and Young People's Nursing Practices Elizabeth Anne Bruce, Janet Williss, Faith Gibson, 2023-03-20 Clinical skills are essential in the provision of care for children and young people. The Great Ormond Street Hospital Manual of Children and Young People's Nursing Practices provides expert guidance on evidence-based clinical procedures, helping students and newly registered nurses develop sound clinical judgement and confidence. This comprehensive resource covers all aspects of children's nursing from the fundamentals of everyday practice to advanced care in high dependency and intensive care settings. As such, its relevance and usefulness reach beyond those newly registered; it remains a valuable resource for experienced nurses wishing to further expand their nursing skills. Now in its second edition, this thoroughly updated guide demonstrates each procedure, explains the underlying theory and evidence, and speaks to the unique challenges of working with children and young people. New chapters address mental health, complementary therapies, learning difficulties and the deteriorating child, whilst expanded content examines blood glucose monitoring, glucocorticoid treatment, insulin administration, diabetes care, surgical diathermy, non-invasive ventilation and much more. **Key Features** Provides evidence-based guidelines for more than 300 clinical procedures. Debates on U.S. Immigration Judith Gans, Elaine M. Replogle, Daniel J. Tichenor, 2012-08-17. This issues based reference work available in both print and electronic formats shines a spotlight on immigration policy in the United States. The U.S. is a nation of immigrants. Yet while the lofty words enshrined with the Statue of Liberty stand as a source of national pride, the rhetoric and politics surrounding immigration policy all too often have proven far less lofty. In reality, the apparently open invitation of Lady Liberty seldom has been without restriction. Throughout our history, impassioned debates about the appropriate scope and nature of such restriction have emerged and mushroomed among politicians, among scholars of public policy, among the general public. In light of the need to keep students, researchers and other interested readers informed and up to date on status of U.S. immigration policy, this volume uses introductory essays followed by point counterpoint articles to explore prominent and perennially important debates, providing readers with views on multiple sides of this complex issue. While there are some brief works looking at debates on immigration as well as some general A to Z encyclopedias, we offer more in depth coverage of a much wider range of themes and issues, thus providing the only fully comprehensive point counterpoint handbook tackling the issues that political science, history and sociology majors are asked to explore and to write about as students and that they will grapple with later as policy makers and citizens.

Features/Benefits: The volume is divided into three sections, each with its own Section Editor: Labor/Economic Debates, Judith Gans; Social/Cultural Debates, Judith Gans and Political/Legal Debates, Daniel Tichenor. Sections open with a Preface by the Section Editor to introduce the broad theme at hand and provide historical underpinnings. Each section holds 12 chapters addressing varied aspects of the broad theme of the section. Chapters open with an objective lead-in piece or headnote followed by a point article and a counterpoint article. All pieces, headnote, point article, counterpoint article are signed. For each chapter, students are referred to further readings, data sources and other resources as a jumping off spot for further research and more in depth exploration. Finally, volume concludes with a comprehensive index and the electronic version includes search and browse features as well as the ability to link to further readings cited within chapters should they be available to the library in electronic format.

Working with Students with Disabilities Theresa A. Quigney, Jeannine R. Studer, 2016-01-22. Like no other book available, *Working with Students with Disabilities: A Guide for School Counselors* provides comprehensive coverage of school counselors' roles in
