Coerced Erin Hatton,2020-03-24 What do prisoner laborers graduate students welfare workers and college athletes have in common According to sociologist Erin Hatton they are all part of a growing workforce of coerced laborers Coerced explores this world of coerced labor through an unexpected and compelling comparison of these four groups of workers for whom a different definition of employment reigns supreme one where workplace protections do not apply and employers wield expansive punitive power far beyond the ability to hire and fire Because such arrangements are common across the economy Hatton argues that coercion as well as precarity is a defining feature of work in America today Theoretically forceful yet vivid and gripping to read Coerced compels the reader to reevaluate contemporary dynamics of work pushing beyond concepts like career and gig work Through this bold analysis Hatton offers a trenchant window into this world of work from the perspective of those who toil within it and who are developing the tools needed to push back against it *Athletic Director's Desk Reference* Donna A. Lopiano,Connee Zotos,2022-02-15 This applied reference includes management tips planning tools and policies for athletic administrators Designed primarily as a reference for intercollegiate athletic program administrators high school athletic administrators courses in athletic administrations and libraries *Square Pegs and Round Holes* Fred A. Bonner II,Rosa M. Banda,Stella L. Smith,aretha f. marbley,2023-07-03 Developing alternative student development frameworks and models this groundbreaking book provides student affairs practitioners as well as faculty with illuminating perspectives and viable approaches for understanding the development of today's diverse student populations and for building the foundation for their academic success and self authorship With the increasing number of adult working students minoritized multiracial LGBTQ and first generation students this book offers readers vital insights into and ways to interrogate existing practice and develop relevant responses to the needs of these populations Building on and critiquing the past frameworks and integrating the insights of contemporary scholarship on student development the contributors collectively put forward a robust theoretical and methodological foundation for this work using Critical Race Theory as their central frame CRT allows chapter

authors to situate race related encounters at the center of their proposed alternative framework or model and deconstruct and challenge commonly held assumptions about diverse college student development In the tradition of CRT each author offers an alternative model or framework that can be applied to the diverse population upon which the chapter is framed prompting readers to address such questions as Who are our college students What set of experiences do our students bring to the higher education context What role have their environments contexts i e home p 12 community family peer groups mentors played in our student s lives What impact have intervening variables i e race oppression power had on their experiences What strategies do they use to overcome developmental obstacles How do they define success and how they know they have achieved it By laying bare the experiences of these diverse college students that inform this volume s alternative frameworks this book contests that notion that they constitute square pegs that must fit into the round holes of traditional frameworks *2019-20 NCAA Division III Manual ,2019*
