

EXAM CRAM

The NCLEX-PN® Cram Sheet

This cram sheet contains the definitions, key facts, about the licensure exam. Review this information just before you enter the testing center, paying special attention to those areas where you feel you need the most review. You can transfer any of these facts from your head onto a blank sheet provided by the testing center. Use also recommended reading the glossary as a last minute check-back before entering the testing center. Good luck.

GENERAL TEST INFORMATION

- Minimum test duration (20)**—The minimum time allotted for the test is 3 hours. Don't get frustrated if you need to take the entire number of items or take the entire allotted time. Don't be and most assured and time breaks if you finish a question.
- Take your time and manage yourself studying to pass specific questions**—Take a small break with you that you take that with you during your study time.
- Read the questions and all answers carefully**—Don't jump to conclusions or make wild guesses.
- Look for keywords**—Read answers that include almost, almost all, never, only, must, no, might or may.
- Watch for specific details**—Watch major answers. Look for adjectives and adverbs.
- Eliminate answers that are clearly wrong or incorrect**—Eliminating any incorrect answer increases the probability of selecting the correct answer to 25%.
- Look for information given within the question and the answer**—For example, the phrase "client with diabetes mellitus" immediately reminds the nurse of 7.00-7.40 or normal (g).
- Look for the word or words working in the question and the answers**.
- Watch for grammatical inconsistencies**—Subjects and verbs should agree, meaning singular subject, singular verb or plural subject, plural verb. If the question is an incomplete sentence, the correct answer should complete the sentence in a grammatically correct manner.
- Don't read into questions**—Reading into the question can create errors in judgment. If the question asks for an immediate response or justification of action, answer the question that is critical to the info and safety of the client.
- Make an educated guess**—If you are unsure after carefully reading the question and all the answers, choose C as the answer with the most information.

GENERAL LAB VALUES

- Normal temperature**—It is important for you to remember these normal lab values because they might be included in questions throughout the test.
 - **Normal**: 36.1-36.8 °C (96.8-98.2 °F)
