- **Power management** enables projector to automatically turn off when an incoming signal is not detected from any of the inputs.
- **Auto Power On** via the Computer I (15-pin) input connector when a signal is detected from a computer.
- **Carbon savings meter** calculates the positive effects of operating the projector in ECO Mode, which is encouraged by an optional message at startup. A green ECO Mode button on the remote control makes the switch easy.
- **Quick start (5 seconds)** lets you begin presenting in seconds while quick shutdown (immediate power off with no cooling required after shutdown) ensures efficient energy usage.
- **Sleep timer** can be set to automatically turn off the projector at set countdown times.
- **Filter life** increased by three times compared to previous generation models.
- **Low power consumption** (5.0W in standby mode) minimizes energy costs.
