The Palgrave Handbook of Contemporary Kenya Wanjala S. Nasong'o, Maurice N. Amutabi, Toyin Falola, 2023-05-27

This volume is a bold attempt to address a comprehensive range of themes and issues relating to contemporary Kenya. It covers independent Kenya's history, society, culture, economics, politics, and environment with great breadth and depth, comprising thirty-four chapters divided into three parts. Part I focuses on independence and the political economy of development, followed by Part II on environment, globalization, gender, and society. Part III examines the external context's impact and implications for Kenya and the role of Kenya in the global political economy.

Conservation Agriculture in Africa Saidi Mkomwa, Amir H. Kassam, 2022-01-11. Tillage agriculture has led to widespread soil and ecosystem degradation globally, and more particularly in the developing regions. This is especially so in Africa, where traditional agricultural practices have become unsustainable due to severe exploitation of natural resources with negative impacts on the environment and food system. In addition, agricultural land use in Africa today faces major challenges, including increased costs, climate change, and a need to transform to more sustainable production intensification systems. Conservation Agriculture has emerged as a major alternative, sustainable, climate-smart agriculture approach in Africa and has spread to many African countries in the past decade, as more development and research, including in sustainable mechanization, has enabled its extension and uptake. It is key to transforming Africa's agriculture and food system given its ability to restore soil health, biodiversity, and productivity of millions of smallholder farms as well as larger-scale farms. This book is aimed at all agricultural stakeholders in the public, private, and civil sectors in Africa engaged in supporting the transformation of conventional tillage agriculture to Conservation Agriculture. The book will be of interest to researchers, academics, students, development stakeholders, public and private sector investors, and policy makers, as well as institutional libraries across the world.

Student Stress in Higher Education Aloka, Peter, 2023-12-07. In the realm of higher education, the journey to academic success is often accompanied by an array of challenges, particularly in the form of stress and its profound impact on mental health. The multifaceted nature of these challenges, stemming from a variety of factors, has sparked significant interest among scholars and educators alike. *Student Stress in Higher Education* delves into the intricate interplay between stressors, coping mechanisms, and the psychological well-being of students within higher education institutions. This book addresses a conspicuous gap in existing literature, meticulously examining the dimensions of stress uniquely experienced in higher education settings. The chapters contained within illuminate various facets of this complex issue. From the barriers obstructing effective stress management to the gender disparities in mental health experiences, each chapter dissects a critical aspect of the overarching theme. The insights garnered from these chapters hold potential to reshape institutional approaches to mental health awareness and support. This book serves as a beacon of knowledge for a diverse readership. Scholars seeking to explore the nuanced landscape of student well-being will find this volume to be an indispensable
