Migrant Anxieties Aine O'Healy, 2019-01-24 During a period of heightened global concerns about the movement of immigrants and refugees across borders *Migrant Anxieties* explores how filmmakers in Italy have probed the tensions accompanying the country's shift from an emigrant nation to a destination point for over five million immigrants over the course of three decades. In *O'Healy* traces a phenomenology of anxiety that is not only present at the sociopolitical level but also interwoven into the narrative strategies of over 30 films produced since 1990 throwing into sharp relief the interface between the local and the global in this transnational era. Starting with the representation of post communist migrations to Italy from Eastern Europe and subsequent arrivals from Africa through the controversial frontier of Lampedusa *O'Healy* explores topics as diverse as the configuration of migrant labor affective surrogacy Italian whiteness and the legacy of Italy's colonial history. Showing how contemporary filmmaking practices in Italy are linked to changes in the broader media landscape *O'Healy* analyzes the ways in which both Italian and migrant filmmakers are reimagining Italian society and remapping the nation's borderscape.

Italian Annotated Bibliography of Tuna, Tuna-like and Billfish Species Antonio Di Natale, 2022-12-15 The Italian annotated bibliography on tunas, tuna-like and billfish species is a sort of unicum because for the very first time it provides annotation in English for all papers published by Italian authors over the centuries in various languages. Taking into account that these species are an essential component of the Italian and Mediterranean culture, thousands of authors published a very high amount of papers since historical times on various themes and subjects. These large fish species are nowadays not only essential elements of the marine trophic chain but also important components of human seafood and the related fishery economy. This book makes all these papers internationally available for all scientists helping them in their research activities and the annotations facilitate the searching work by species and keywords.

Religious Freedom in Italy Alessandro Ferrari, 2023-12-31 Italy, seat of the Pope and Vatican City, has a long and difficult relationship with religious freedom. Often identified as a Catholic nation par excellence, Italy owes its unification to a political class that advocated the separation of Church and State. Home of the Concordat, contemporary Italy recognises a peculiar notion of legal secularism, *laicità*, as the supreme principle of its constitutional order. Through the glasses of law, tracing the history of the right to religious freedom from the Unification to the present day, the nine chapters of the book allow an insight on paradoxes and contradictions of a complex system made of unresolved stratifications where a strong constitutional recognition of religious freedom is accompanied by a weak legislative protection of religious pluralism and at the same time a vigorous religious agency in the public space. Religious freedom in Italy offers an interpretation of a model of religious freedom that is not only a paradigm for many European experiences but also a possible interpretative parameter to better understand the dynamics of religious freedom between the two shores of the Mediterranean.
