**CONCEPT PAPER**

Subject: LS 314 (Language Planning)  
Submitted to: Dr. Faith Miguel  
Submitted by: Edgar R. Eslit

**Introduction**

Language planning is a deliberate effort to influence the function, structure, or acquisition of languages or language variety within a speech community. It is often associated with government planning, but is also used by a variety of non-governmental organizations, such as grass-roots organizations and even individuals. The goals of language planning differ depending on the nation or organization, but generally include making planning decisions and possibly changes for the benefit of communication. Planning or improving effective communication can also lead to other social changes such as language shift or assimilation, thereby providing another motivation to plan the structure, function and acquisition of languages (Ogbu, 1987). In this concept paper, the author will look into different international studies that have strongly validated the superiority of employing the mother-tongue or first language for enhancing learning outcomes and in promoting Education for all (EFA).

It is through language that we develop our thoughts, shape our experience, explore our customs, structure our community, construct our laws, articulate our values and give expression to our hopes and ideas. 'Mother Tongue is a common language that is freely and comfortably spoken by adult generation both at home and outside to their successors in a community and reflect one's culture and ethnic backgrounds'<sup>1</sup>. It is the means by which different groups within the society maintain their identities. They do this by using the language in a way which is characteristic of their group and by which they can be identified. Within a multicultural society such as the Philippines there exist many subgroups that express their distinctiveness by particular forms of language freely and commonly used in their communities.

**Lean Development and Innovation** Luciano Attolico, 2018-09-06 Using Toyota's principles for product and process development this book focuses the implementation of the Lean system during the past 10 years in dozens of corporations across various industries. The book highlights all steps on the journey from common trouble area to remarkable results. As it is written by a manager for other managers it contains real work discoveries and insights. The author provides case studies from many different fields of application. The reader gains insight on US and European companies that successfully streamlined their innovation and product development processes. These companies have overcome difficult periods and major challenges thanks to the ability to innovate with new Lean methodologies and above all a new workplace culture and mindset. The goal of this book is to help managers successfully apply Lean principles in the innovation and development area of their company while benefitting from the author's lessons learned during his many years of capitalized experience. This book provides a comprehensive framework that supports step by step the successful application of Lean principles in the innovation and development areas of the company. Readers learn how to drastically reduce the time required to develop products and discover and eliminate hidden costs and critical waste while increasing value for customers. **Proposal**

**Writing Manual** Emily Gantz McKay, 1983 *Federal Register*, 2001-08 *A Guide to Writing Sociology Papers* Roseann Giarrusso, University of California, Los Angeles. Sociology Writing Group, 2001-02-15 Ideal for instructors and students in a wide range of sociological courses this guide makes the case that thinking and writing are integrally related and that writing therefore exercises the sociological imagination. Written in a clear and conversational style *A Guide to Writing Sociology Papers* examines a wide range of writing assignments for sociology courses at all levels of the curriculum. Employing a variety of writing samples as a means to illustrate effective writing this brief and inexpensive text teaches students how to deftly research and write about sociology. **Practical Program Evaluations**

Gerald A. Emison, 2007 Program evaluation requires attention to rationality, rigor and careful methods. Yet precision and accuracy alone do not guarantee that program evaluations will be implemented. This text hones in on the applied side of program evaluation presenting program evaluations that are used and improve public enterprises. *Health Research Fundamentals* P. Manickam, Tarun Bhatnagar, 2024-02-07 Are you aspiring or pursuing a career in health research? Are you inquisitive about how health research is planned and implemented? You could be a student, a physician or surgeon, a public health practitioner, a health counsellor, a research associate, a nurse, a pharmacist, a data manager, a project manager, an ethics committee member or just curious. *Health Research Fundamentals* is the book to start with to be a competent public health researcher. This book is a primer on health research methods with an effective combination of theoretical foundation and practical experiences. Fully appreciative of the fact that there may not always be a single best approach to health research the goal here is to provide you with an overview of the principles and steps involved in biomedical and health research. This book will walk you through the systematic

process of conceptualising designing planning proposing conducting and reporting a health research study Give you a head start whether you are concerned with clinical research and clinical trials patient oriented research epidemiologic studies behavioral science translational research or health services related research Get onboard to a stimulating journey of demystifying health research fundamentals

**Drug Discovery and Development - E-Book** Raymond G Hill, 2012-07-20

The modern pharmacopeia has enormous power to alleviate disease and owes its existence almost entirely to the work of the pharmaceutical industry This book provides an introduction to the way the industry goes about the discovery and development of new drugs The first part gives a brief historical account from its origins in the mediaeval apothecaries trade and discusses the changing understanding of what we mean by disease and what therapy aims to achieve as well as summarising case histories of the discovery and development of some important drugs The second part focuses on the science and technology involved in the discovery process the stages by which a promising new chemical entity is identified from the starting point of a medical need and an idea for addressing it A chapter on biopharmaceuticals whose discovery and development tend to follow routes somewhat different from synthetic compounds is included here as well as accounts of patent issues that arise in the discovery phase and a chapter on research management in this environment The third section of the book deals with drug development the work that has to be undertaken to turn the drug candidate that emerges from the discovery process into a product on the market The definitive introduction to how a pharmaceutical company goes about its business of discovering and developing drugs The second edition has a new editor Professor Raymond Hill non executive director of Addex Pharmaceuticals Covagen and of Orexo AB Visiting Industrial Professor of Pharmacology in the University of Bristol Visiting Professor in the School of Medical and Health Sciences at the University of Surrey Visiting Professor in Physiology and Pharmacology at the University of Strathclyde President and Chair of the Council of the British Pharmacological Society member of the Nuffield Council on Bioethics and the Advisory Council on Misuse of Drugs New to this edition Completely rewritten chapter on The Role of Medicinal Chemistry in the Drug Discovery Process New topic DMPK Optimization Strategy in drug discovery New chapter on Scaffolds Small globular proteins as antibody substitutes Totally updated chapters on Intellectual Property and Marketing 50 new illustrations in full colour Features Accessible general guide to pharmaceutical research and development Examines the interfaces between cost and social benefit quality control and mass production regulatory bodies patent management and all interdisciplinary intersections essential to effective drug development Written by a strong team of scientists with long experience in the pharmaceutical industry Solid overview of all the steps from lab bench to market in an easy to understand way which will be accessible to non specialists From customer reviews of the previous edition it will have everything you need to know on this module Deeply referenced and thus deeply reliable Highly Commended in the medicine category of the BMA 2006 medical book competition Winner of the Royal Society of Medicine Library Prize for Medical Book of the Year

**Global Media Ecologies** Doris

Baltruschat,2010-07-02 This study highlights dramatic changes in worldwide media production detailing how collaborations in the form of co productions format franchising and audience interactivity define the new media economy and affect a shift across the entire field of cultural production These developments also reflect broader trends in cultural and economic globalization
