S. Janfada,2019-06-04 Algorithms are the essence of programming After their construction they have to be translated to the
codes of a specific programming language There exists a maximum of ten basic algorithmic templates This textbook aims to
provide the reader with a more convenient and efficient method to create a program by translating algorithms template by
template with C and Java This is the slogan of the book You will be a professional programmer whenever you become a
skilled algorithm designer This book attempts to gradually strengthen the readers ability to identify and analyze the mental
commands which are issued and implemented in their brains for solving the problems in which mathematical computations
are applied and try to design an algorithm based on their understanding and analyses It then seeks to encourage the readers
to develop their skills in algorithm writing for computational problems and synchronously teach them to translate the
algorithms into C and Java codes using the least necessary keywords Sams Teach Yourself Java 2 in 24 Hours ,2003 Sams
Teach Yourself Java in 24 Hours Third Edition is a step by step tutorial that teaches someone with no previous programming
experience how to create simple Java programs and applets It starts out at a lower level than Sams Teach Yourself Java in 21
Days and takes things at a slower pace focusing on key programming concepts and essential Java basics Although the basic
structure of the book and many of its examples will remain the same in this new edition the author will make use of dozens of
reader comments to make improvements to explanatory text and example programs This new edition of the book maintains
and improves upon all these qualities while updating revising and reorganizing the material to cover the latest developments
in Java and to expand the book s coverage of core Java programming topics *SAMS Teach Yourself Programming with
Java™ in 24 Hours, FOURTH EDITION* Rogers Cadenhead,2005 If you have been wanting to learn Java check out the newly
revised fourth edition of the best seller Sams Teach Yourself Programming with Java in 24 Hours This step by step tutorial
will teach you how to create simple Java programs and applets Comprised of 24 one hour lessons this new edition focuses on
key programming concepts and essential Java basics has been improved by dozens of reader comments and is reorganized to
better cover the latest developments in Java The book s coverage of core Java programming topics has also been expanded A
