Libby,2013-11-22 This is the first book that explains the Tea Party s successful primary campaign against Republicans in Name Only RINOs Grassroots Tea Party activists adopted this strategy in 2009 shortly after the movement emerged The first successful campaign occurred in upstate New York where the

Tea Party defeated Dede Scozzafava a RINO running for congress in a Republican primary that only elected Republicans to office during the previous 100 years Armed with success they defeated conservative Utah Senator Bob Bennett an eighteen year veteran and then proceeded to defeat the popular Republican RINO governor of Florida Charlie Crist and elected the virtually unknown Tea Party candidate Marco Rubio This placed all Republicans on notice that if they do not follow conservative fiscal policies they could be primaried The Tea Party s goal is to take control of the Republican Party and return it to its original fiscal conservatism

This Land is My Land James R. Skillen, 2020-08-10 Among American conservatives the right to own property free from the meddling hand of the state is one of the most sacred rights of all But in the American West the federal government owns and oversees vast patches of land complicating the narrative of western individualism and private property rights As a consequence anti federal government sentiment has animated conservative politics in the West for decades upon decades In *This Land Is My Land* James R Skillen tells the story of conservative rebellion ranging from legal action to armed confrontations against federal land management in the American West over the last forty years He traces the successive waves of conservative insurgency against federal land authority the Sagebrush Rebellion 1979 1982 the War for the West 1991 2000 and the Patriot Rebellion 2009 2016 and shows how they evolved from regional revolts waged by westerners with material interests in federal lands to a national rebellion against the federal administrative state Cumulatively Skillen explains how ranchers miners and other traditional users of federal lands became powerful symbols of conservative America and inseparably linked to issues of property rights gun rights and religious expression Not just a book about property rights battles over Western lands *This Land is My Land* reveals how the evolving land based conflicts in the West since the 1980s reshaped the conservative coalition in America a development that ultimately helped lead to the election of President Donald J Trump in 2016

America for Sale Jerome R. Corsi, 2009-10-13 A RESOUNDING CALL TO DEFEND AMERICA S SOVEREIGNTY AND SAVE OUR NATION FROM GLOBAL ECONOMIC TAKEOVER FROM THE 1 NEW YORK TIMES BESTSELLING AUTHOR OF THE OBAMA NATION AND THE LATE GREAT USA Between President George W Bush s new world order and the unprecedented governmental growth and massive redistribution of wealth under President Barack Obama the United States risks losing the greatest middle class ever created in the history of the world In his groundbreaking new book Dr Jerome R Corsi blows the whistle on a movement to undercut the fundamental principles of limited government that our Founding Fathers fought for and died for trying to establish As policy makers manipulate the economic panic of our times to advance a globalist agenda that threatens American sovereignty we must protect our independent and self governing nation and preserve the decades of economic power and military strength we have enjoyed since the end of World War II In *America for Sale* Corsi explains the globalists plan to put America on the chopping block While the radical Left promotes socialism and the radical Right champions unbridled free trade valuable jobs are being outsourced our national borders erased and our dollar destroyed before our very eyes Foreign investors are buying up U S

assets from financial services firms to public infrastructure such as highways We are on our way to a European Union type North American common market and a one world government With constructive solutions for resisting the global New Deal reversing our dependence on foreign oil and strengthening our middle class Corsi shares important and practical strategies to help American families survive an imminent economic depression The United States can be a major player in the world economy without sacrificing our sovereignty the strength of our national domestic economy or the dollar America is for sale unless taxpayers stand up and say NO to the globalist political agenda that threatens our great nation s freedom Political Parties, Pressure Groups and Social Movements Dr. Ram Ayodhya Singh,2021-09-15 A political party is a political organization that typically seeks to influence government policy usually by nominating their own candidates and trying to seat them in political office Parties participate in electoral campaigns and educational outreach or protest actions Parties often espouse an expressed ideology or vision bolstered by a written platform with specific goals forming a coalition among disparate interests An advocacy group is a group or an organization which tries to influence the government but does not hold power in the government A single issue group may form in response to a particular issue area sometimes in response to a single event or threat Some have developed into important social political institutions or social movements Some powerful Lobby groups have been accused of manipulating the democratic system for narrow commercial gain and in some instances have been found guilty of corruption fraud bribery and other serious crimes lobbying has become increasingly regulated as a result Some groups generally ones with less financial resources may use direct action and civil disobedience and in some cases are accused of being a threat to the social order or domestic extremists Research is beginning to explore how advocacy groups use social media to facilitate civic engagement and collective action Contents Political Parties The Role of Political Parties in Constitutionalising Governance The Systemic Role of Parties and Interest Groups Functions of Pressure Groups Growth of Pressure Groups Legal Representation of Interests Social Movement Social Movement in India The ^ARise and Fall of the Neoliberal Order Gary Gerstle,2022-03-01 In The Rise and Fall of the Neoliberal Order Gary Gerstle provides a sweeping re interpretation of the entire era from the revival of market liberalism in the 1970s to the ruin generated by the 2008 global financial crisis that places America at the center For many neoliberalism is a term of opprobrium and their critique of it is simple it prioritizes free market principles over people and under the guise of expanding individual choice throughout the world has dramatically shifted power toward capital While sympathetic to the regime s critics Gerstle contends that the largely negative conventional wisdom misses the full contours of what neoliberalism was and why its worldview exerted such persuasive hold on both right and left for so long **Third Parties, Outsiders, and Renegades** Melissa M. Smith,2022-02-07 Third Parties Outsiders and Renegades analyzes 10 third party outsider or renegade presidential candidates and explores each one s impact on the political process The list of modern outsider candidates who have attracted the public s attention is fairly long but most of the time the candidates never garner enough support to

become elected or they self destruct somewhere along the way A few however have taken votes away from more mainstream candidates and changed the course of political parties or election outcomes This book provides readers with an analysis of how their rhetoric political tactics and issues have challenged the political status quo and impacted later campaigns The future viability of outsider candidates is discussed in light of current political polarization and the legacy of Donald J Trump the first elected outsider president and considers how outsider candidates might be able to compete in upcoming elections given the current political divisions within the nation Scholars and students of communication political science and rhetoric will find this book particularly interesting
