**The Palgrave Handbook of Contemporary Kenya** Wanjala S. Nasong'o, Maurice N. Amutabi, Toyin Falola, 2023-05-27

This volume is a bold attempt to address a comprehensive range of themes and issues relating to contemporary Kenya. It covers independent Kenya's history, society, culture, economics, politics, and environment with great breadth and depth, comprising thirty-four chapters divided into three parts. Part I focuses on independence and the political economy of development, followed by Part II on environment, globalization, gender, and society. Part III examines the external context's impact and implications for Kenya and the role of Kenya in the global political economy.

Señor Kon-Tiki; the Biography of Thor Heyerdahl Arnold Jacoby, 1967. The voyage of Kon Tiki just two decades ago was one of the great true adventures of our century. For its daring leader Thor Heyerdahl, this expedition was the turning point of a life already crowded with excitement. Now overnight he was an international celebrity but a man half-obscured by the shadow of his own achievement. Millions knew his name but few knew the man behind the voyage. In this definitive biography, Arnold Jacoby focuses on that man. He tells of Heyerdahl's boyhood, youth, the experimental year when he and his bride returned to nature on a remote Pacific island to see if modern man was better off than primitive man, and of his wartime experiences in the Free Norwegian Army. One theme recurs throughout those years: Heyerdahl's growing conviction that accepted scientific opinion about the origins of the South Sea Islanders was incorrect. But his own theories brought only scorn from the scientific community until he set out to prove himself right in the only way possible: by recreating the Pacific voyage he knew must once have taken place. The Kon Tiki and subsequent expeditions to Easter Island and the Galapagos won Heyerdahl renown and perhaps more importantly, scientific respect. The behind-the-scenes stories of these achievements and their aftermath are all part of this fascinating book.

*Mindfulness in Internet and New Media* Wen-Ko Chiou, Chao Liu, Hao Chen, Shuhua Zhou, 2023-10-24. Mindfulness is about being aware in a certain way, being consciously aware on purpose, living in the present moment without mental judgment. In addition to the in-depth application of mindfulness in different subdisciplines of psychology (e.g., social, personality, clinical, developmental, health, organizational), there is also a trend toward cross-fertilization with other social and behavioral disciplines (e.g., design, kinesiology, sociology, family studies, education, anthropology, neuroscience, philosophy, economics, medicine, organizational science). However, the application of mindfulness in the field of communication is limited. With the rapid development of the Internet and new media, the study of Internet communication is growing rapidly. The Internet and new media make it easy to connect with others, explore a new world, and regard cyberspace as an extension of one's own thoughts and personality. Nevertheless, when people use the Internet and new media mindlessly, they will easily experience the social effects on their virtual selves and encounter psychological problems (e.g., network morality, network anxiety, network pornography, network addiction, and cyberbullying), which has become a widespread and serious problem. As an important part of positive psychology, mindfulness intervention has been proved to help improve a series of negative psychological states and

promote positive emotions and subjective well being However what theoretical and practical contributions can mindfulness in the Internet and new media bring remains unknown Thus this Research Topic focuses on the influence and intervention of mindfulness on the psychological problems caused by the network new media communication We welcome high quality studies using a variety of research methods including quantitative qualitative mixed methods and reviews on the second generation of mindfulness interventions and other meditation based interventions e g focused attention meditation transcendental meditation and loving kindness meditation This Research Topic encourages submissions that cover but are not limited to the following topics 1 The internet and new media guided mindfulness and loving kindness meditation practice 2 Mindfulness and interpersonal communication in the network network trust network security network intimacy 3 Mindfulness and network clustering behavior 4 Mindfulness and online consumer psychology 5 Mindfulness and cyber moral psychology cyberbullying cyber altruism and prosocial behavior 6 Mindfulness and online pornography 7 Mindfulness and internet addiction 8 Mindfulness and online psychological counseling 9 Mindfulness and new media anxiety

radical revision of Neo Confucian discourse Tucker's introduction also examines the reception of Sorai's two Ben during the remainder of the Tokugawa calling attention to radical tendencies in later developments of Sorai's thought as well as to the increasingly scathing critiques of his Chinese approach to philosophy language and politics Finally it traces the vicissitudes of the two Ben in modern Japanese intellectual history and their role in the formation of the ideas of Meiji intellectuals such as Nishi Amane 1829 1897 and Kato Hiroyuki 1836 1916 As before however Sorai came under attack this time for his supposed irreverence toward the throne the Japanese people and the imperial nation state Though an unpopular philosophy in early twentieth century Japan in the postwar years Sorai's thought was interpreted by Maruyama Masao and others as an important modernizing force While it critiques such ideologically grounded attempts to cast Sorai's Bend and Benmei as theoretical contributions to political modernization Tucker's study nevertheless acknowledges that Sorai's masterworks in their concern for language analysis as the way to solve philosophical problems share significant common ground with the analytic approach to philosophy pioneered by various twentieth century Anglo American philosophers
