Women's Education Jewel A. Smith,2019-01-30 Female seminaries in nineteenth century America offered middle class

women the rare privilege of training in music and the liberal arts A music background in particular provided the foundation for a teaching career one of the few paths open to women Jewel A Smith opens the doors of four female seminaries revealing a milieu where rigorous training focused on music as an artistic pursuit rather than a social skill Drawing on previously untapped archives Smith charts women s musical experiences and training as well as the curricula and instruction available to them the repertoire they mastered and the philosophies undergirding their education She also examines the complex tensions between the ideals of a young democracy and a deeply gendered system of education and professional advancement An in depth study of female seminaries as major institutions of learning *Transforming Women s Education* illuminates how musical training added to women s lives and how their artistic acumen contributed to American society *Abraham Robinson* Joseph Warren Dauben,2014-07-14 One of the most prominent mathematicians of the twentieth century Abraham Robinson discovered and developed nonstandard analysis a rigorous theory of infinitesimals that he used to unite mathematical logic with the larger body of historic and modern mathematics In this first biography of Robinson Joseph Dauben reveals the mathematician s personal life to have been a dramatic one developing his talents in spite of war and ethnic repression Robinson personally confronted some of the worst political troubles of our times With the skill and expertise familiar to readers of Dauben s earlier works the book combines an explanation of Robinson s revolutionary achievements in pure and applied mathematics with a description of his odyssey from Hitler s Germany to the United States via conflict ridden Palestine and wartime Europe Robinson was born in Prussia in 1918 As a boy he fled with his mother and brother Saul to Palestine A decade later he narrowly escaped from Paris as the Germans invaded France Having spent the rest of World War II in England at the Royal Aircraft Establishment in Farnborough he began his teaching career at the Royal College of Aeronautics Subsequently he moved to universities in Canada Israel and finally the United States A joint appointment in mathematics and philosophy at UCLA led to a position at Yale University where Robinson served as Sterling Professor of Mathematics until his untimely death at the age of fifty five Originally published in 1995 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 **XML in Scientific Computing** Constantine Pozrikidis,2012-09-17 While the extensible markup language XML has received a great deal of attention in web programming and software engineering far less attention has been paid to XML in mainstream computational science and engineering Correcting this imbalance XML in Scientific Computing introduces XML to scientists and engineers in a way that illustrates the si **Legal Aspects of Ethnic Data Collection and Positive Action** Jozefien Van Caeneghem,2019-09-05 This book addresses the legal feasibility of ethnic data

collection and positive action for equality and anti discrimination purposes and considers how they could be used to promote the Roma minority s inclusion in Europe The book s central aim is to research how a societal problem can be improved upon from a legal perspective The controversy surrounding ethnic data collection and positive action severely limits their use at the national level Accordingly legal and political concerns are analysed and addressed in order to demonstrate that it is possible to collect such data and to implement such measures while fully respecting international and European human rights norms provided that certain conditions are met Part I focuses on ethnic data collection and explores the key rules and principles that govern it the ways in which this equality tool could be used and how potential obstacles might be overcome It also identifies and addresses the specific challenges that arise when collecting ethnic data on the Roma minority in Europe In turn Part II explores positive action and the broad range of measures covered by the concept before analysing the applicable international and European framework It reviews the benefits and challenges of implementing positive action for Roma identifies best practices and gives special consideration to inter cultural mediation in the advancement of Roma inclusion The book concludes with an overview of the main findings on both topics and by identifying three essential elements that must be in place in addition to full respect for the applicable legal rules in order to combat discrimination and achieve the inclusion of Roma in Europe by complementing existing anti discrimination frameworks with the collection of ethnic data and the implementation of positive action schemes

Congressional Record United States. Congress,1998 **Insufficient Funds** Peter C. Alexander,2021-09-03 **Insufficient Funds** The Financial Life of Frank Lloyd Wright By Peter C Alexander Dozens of books have been written about architect Frank Lloyd Wright s architecture aesthetic and various design achievements however no one has looked at his business practices until now In this book Peter Alexander focuses on the financial life of this American architectural genius after more than fifteen years of research Wright was a spendthrift who earned a considerable fortune over his lifetime but he was a man who never had sufficient funds to meet his expenses Most often his lack of financial stability was because he had an insatiable need to spend money on Japanese art pianos cars and other assorted luxury items The material in the book comes from a wide variety of sources including conversations and anecdotes that have been included in the many published works about Mr Wright s life and legacy as well as verifiable and apocryphal stories shared by docents conducting house tours The book is also informed by considerable original material including archival records about Mr Wright s financial life and interviews of two of his grandchildren his Spring Green Wisconsin neighbors former apprentices students enrolled in the Frank Lloyd Wright School of Architecture and homeowners who worked with Wright to build their dream homes
