McCrae, 1992 **Revised Neo Personality Inventory (Neo Pi-R) and Neo Five-factor Inventory (Neo-Ffi)** P. Costa, 1994 Handbook of Personality Assessment Irving B. Weiner, Roger L. McCrae, Juri Allik, 2012-12-06 ROBERT R MCCRAE it is simply personality research conducted in different countries The implicit assumption behind this practice is that personality processes are universal and where they are studied is thus of no consequence An insensitivity to cultural context once imputed mostly to Americans now appears to characterize the field worldwide Fortunately recent years have also seen a rise of interest in studies of personality and culture Church 2001 Church Lee McCauley McCrae 2000 What do these new studies show Are personality processes indeed universal or are there significant variations across cultures that necessitate a more nuanced approach to research There is as yet no definitive answer to that question In some respects human personality does seem to transcend the boundaries of language and culture in other respects it is profoundly influenced by social and historical forces Sorting these issues out must be a priority for our field if we are to understand the current personality literature **Personality in Speech** Tim Polzehl, 2014-08-30 This work combines interdisciplinary knowledge and experience from research fields of psychology linguistics audio processing machine learning and computer science The work systematically explores a novel research topic devoted to automated modeling of personality expression from speech For this aim it introduces a novel personality assessment questionnaire and presents the results of extensive labeling sessions to annotate the speech data with personality assessments It provides estimates of the Big 5 personality traits i.e. openness conscientiousness extroversion agreeableness and neuroticism Based on a database built on the questionnaire the book presents models to tell apart different personality types or classes from speech automatically **Oxford Handbook of Personality Assessment** James N.
