

35-2 The Nervous System

Play any team sport—basketball, softball, soccer—and you will discover that communication is one of the keys to success. Coaches call plays, players signal to one another, and the very best teams communicate in a way that enables them to play as a single unit. Communication can make the difference between winning and losing.

The same is true for living organisms. Nearly all multicellular organisms have communication systems. Specialized cells carry messages from one cell to another so that communication among all body parts is smooth and efficient. In humans, these cells include those of the nervous system.  **The nervous system controls and coordinates functions throughout the body and responds to internal and external stimuli.**

Neurons

The messages carried by the nervous system are electrical signals called impulses. The cells that transmit these impulses are called **neurons**. Neurons can be classified into three types according to the direction in which an impulse travels. Sensory neurons carry impulses from the sense organs to the spinal cord and brain. Motor neurons carry impulses from the brain and the spinal cord to muscles and glands. Interneurons connect sensory and motor neurons and carry impulses between them. Although neurons come in all shapes and sizes, they have certain features in common. **Figure 35-5** shows a typical neuron. The largest part of a typical neuron is the **cell body**. The cell body contains the nucleus and much of the cytoplasm. Most of the metabolic activity of the cell takes place in the cell body.

 **Figure 35-5**  The nervous system controls and coordinates functions throughout the body. The basic units of the nervous system are neurons.

Guide for Reading

Key Concepts

- What are the functions of the nervous system?
- How is a nerve impulse transmitted?

Vocabulary

neuron
cell body
dendrite
axon
myelin sheath
resting potential
action potential
threshold
synapse
neurotransmitter

Reading Strategy:

Summarizing As you read, find the main ideas for each paragraph. Write down a few key words from each main idea. Then, use the key words in your summary.

Section 35-2

1 FOCUS

Objectives

35.2.1 Identify the functions of the nervous system.

35.2.2 Describe how a nerve impulse is transmitted.

Guide for Reading

Vocabulary Preview

Tell students that the prefix *neuro-* comes from the Greek word for nerve. Ask: **What do you think the Vocabulary terms neuron and neurotransmitter mean?** (A neuron is a nerve cell; a neurotransmitter is a chemical that transmits messages from a neuron to another cell.)

Reading Strategy

As students read, they should look for Vocabulary words and Key Concepts in the captions and the text. Suggest that students include the Vocabulary words and Key Concepts in their summary.

2 INSTRUCT

Demonstration

Help students appreciate how quickly the cells of the nervous system communicate. Have a volunteer repeat a movement, such as nodding the head, at irregular intervals. Have another volunteer respond to the first movement with a different movement, such as raising a finger. Challenge the class to measure the time it takes for the second volunteer's nervous system to sense, interpret, and respond to the movement made by the first volunteer. (Students probably will find that the response time is too short to measure.)  

Neurons

Use Visuals

Figure 35-5 Point out the nucleus in the cell body. Name each of the other parts of the neuron, and have students locate them in the figure. Urge students to refer to the figure as they read about the parts of a neuron and how they are involved in the transmission of nerve impulses.

Section 35 2 The Nervous System Answers Introduction

In this digital age, the convenience of accessing information at our fingertips has become a necessity. Whether its research papers, eBooks, or user manuals, PDF files have become the preferred format for sharing and reading documents. However, the cost associated with purchasing PDF files can sometimes be a barrier for many individuals and organizations. Thankfully, there are numerous websites and platforms that allow users to download free PDF files legally. In this article, we will explore some of the best platforms to download free PDFs. One of the most popular platforms to download free PDF files is Project Gutenberg. This online library offers over 60,000 free eBooks that are in the public domain. From classic literature to historical documents, Project Gutenberg provides a wide range of PDF files that can be downloaded and enjoyed on various devices. The website is user-friendly and allows users to search for specific titles or browse through different categories. Another reliable platform for downloading Section 35 2 The Nervous System Answers free PDF files is Open Library. With its vast collection of over 1 million eBooks, Open Library has something for every reader. The website offers a seamless experience by providing options to borrow or download PDF files. Users simply need to create a free account to access this treasure trove of knowledge. Open Library also allows users to contribute by uploading and sharing their own PDF files, making it a collaborative platform for book enthusiasts. For those interested in academic resources, there are websites dedicated to providing free PDFs of research papers and scientific articles. One such website is Academia.edu, which allows researchers and scholars to share their work with a global audience. Users can download PDF files of research papers, theses, and dissertations covering a wide range of subjects. Academia.edu also provides a platform for discussions and networking within the academic community. When it comes to downloading Section 35 2 The Nervous System Answers free PDF files of magazines, brochures, and catalogs, Issuu is a popular choice. This digital publishing platform hosts a vast collection of publications from around the world. Users can search for specific titles or explore various categories and genres. Issuu offers a seamless reading experience with its user-friendly interface and allows users to download PDF files for offline reading. Apart from dedicated platforms, search engines also play a crucial role in finding free PDF files. Google, for instance, has an advanced search feature that allows users to filter results by file type. By specifying the file type as "PDF," users can find websites that offer free PDF downloads on a specific topic. While downloading Section 35 2 The Nervous System Answers free PDF files is convenient, its important to note that copyright laws must be respected. Always ensure that

the PDF files you download are legally available for free. Many authors and publishers voluntarily provide free PDF versions of their work, but it's essential to be cautious and verify the authenticity of the source before downloading Section 35 2 The Nervous System Answers. In conclusion, the internet offers numerous platforms and websites that allow users to download free PDF files legally. Whether it's classic literature, research papers, or magazines, there is something for everyone. The platforms mentioned in this article, such as Project Gutenberg, Open Library, Academia.edu, and Issuu, provide access to a vast collection of PDF files. However, users should always be cautious and verify the legality of the source before downloading Section 35 2 The Nervous System Answers any PDF files. With these platforms, the world of PDF downloads is just a click away.
