Through an engaging examination of issues such as these and using non technical language *Reflections of Our Past* shows how anthropologists use genetic information to test theories and define possible answers to fundamental questions in human history By looking at genetic variation in the world today we can reconstruct the recent and remote events and processes that created the variation we see providing a fascinating reflection of our genetic past *Reflections of Our Past* is a W W Howells Book Prize Winner and Choice Outstanding Academic Title **Human Biologists in the Archives** D. Ann Herring, Alan C.
