

Sectionalism and The Civil War

In the year 1861 the civil war began in the United States, the north and south declared war on each other over authority and the law to end slavery. Even though both northerners and southerners believed they fought against tyranny and oppression, Southerners defend their own right to self-government and Northerners focused on the oppression of slaves. It was then when everything would change the future of our nation and the way they saw the world. The union party was led by Abraham Lincoln and the Confederacy was led by Jefferson Davis, it was not a regular war and it went onto costing the lives of 625,000 individuals during the entire war.

The American civil war had by far the greater impact on the American society and polity more than any other even in the entire history of the United States. It was one of the deadliest wars that would go on to take the lives of 2% of the population during that time. Comparing it to today's numbers the lives lost to that war would reach 6 million, which is more than any other war fought by the United States of America. In the battle of Sharpsburg, Maryland in September the casualties of American soldiers exceeded the amount of casualties the United States had in the 19th century combined. One must ask as to why did the confederate and the union fought each other with such ferocity during that time.

It all started at the end of the Mexican-American war which left an unanswered question for the people of the country on whether the new seceded land from Mexico would be pro slavery or against. It is here where a major turning point that would go onto changing the history of the nation forever developed. There were people in the congress from both sides that had different ideas as to how to deal with the territories won from Mexico. On one side there were the northerner congress men arguing that all the new territory should exclude any kind of slavery, while the southern congressmen argue that their slave property into any state or territory in the United States. Then California decides to join the union as a free state and the balance of free and slave states would begin to shift. Years later to try to maintain the peace and from keeping the south from seceding from the nation a set of compromises were passed in congress to calm everyone down and one of the main one was the Missouri compromise, but it was only a means to postpone the final showdown between the north and the south. The Kansas-Nebraska act of 1854 would be the final compromise that would be passed and the one that would fully separate the north and the south because it would allow them to decide for themselves using popular sovereignty whether be free or slave states.

All of those events would be deciding points for the civil war to happen because there was always a feeling of distrust between the pro-slave and anti-slave states after decades of division between both of them. By the time Abraham Lincoln became president, the

Beating Plowshares Into Swords Paul A. C. Koistinen, 1996 Koistinen describes how an undeveloped preindustrial economy forced Americans to fight defensive wars of attrition like the Revolution and the War of 1812 By the time of the Mexican War however a gradually maturing economy allowed the United States to use a much more offensive minded strategy to achieve its goals The book concludes with an exhaustive examination of the Civil War a conflict that both anticipated and differed from the total wars of the industrialized era Koistinen demonstrates that the North relied upon its enormous economic might to overwhelm the Confederacy through a strategy of annihilation while the South bungled its own strategy of attrition by failing to mobilize effectively a much less developed economy Reader's Guide to American History

The Civil War and the Press David B. Sachsman, S. Kittrell Rushing, Debra Reddin Van Tuyl, The power of the American press to influence and even set the political agenda is commonly associated with the rise of such press barons as Joseph Pulitzer and William Randolph Hearst at the turn of the century The latter even took credit for instigating the Spanish American War Their power however had deeper roots in the journalistic culture of the nineteenth century particularly in the social and political conflicts that climaxed with the Civil War Until now historians have paid little attention to the role of the press in defining and disseminating the conflicting views of the North and the South in the decades leading up to the Civil War In The Civil War and the Press historians political scientists and scholars of journalism measure the influence of the press explore its diversity and profile the prominent editors and publishers of the day The book is divided into three sections covering the role of the press in the prewar years throughout the conflict itself and during the Reconstruction period Part 1 Setting the Agenda for Secession and War considers the rise of the consumer society and the journalistic readership the

The Shattering of the Union Eric H. Walther, 2004 The 1850s offered the last remotely feasible chance for the United States to steer clear of Civil War Yet fundamental differences between North and South about slavery and the meaning of freedom caused political conflicts to erupt again and again throughout the decade as the country lurched toward secession and war With their grudging acceptance of the Compromise of 1850 and the election of Franklin Pierce as president in 1852 most Americans hoped that sectional strife and political upheaval had come to an end Extremists in both North and South abolitionists and secessionists testified to the prevailing air of complacency by their

shared frustration over having failed to bring on some sort of conflict Both sets of zealots wondered what it would take to convince the masses that the other side still menaced their respective visions of liberty And as new divisive issues emerged in national politics with slavery still standing as the major obstacle compromise seemed more elusive than ever As the decade progressed battle lines hardened The North grew more hostile to slavery while the South seized every opportunity to spread it Immigrant Aid Societies flourished in the North raising money men and military supplies to secure a free soil majority in Kansas Southerners flocked to the territory in an effort to fight off antislavery After his stirring vilification of the institution of slavery Massachusetts senator Charles Sumner was brutally attacked on the floor of the United States Senate Congress whose function was to peacefully resolve disputes became an armed camp with men in both houses and from both sections arming themselves within the capitol building In October 1858 Senator William Henry Seward said that the nation was headed for an irrepressible conflict In spite of the progress ushered in by the decade s enormous economic growth the country was self destructing The Shattering of the Union America in the 1850s is a concise readable analysis and survey of the major ideas and events that resulted in the Civil War The first scholarly synthesis of America s final antebellum decade to be published in more than twenty years this essential overview incorporates methods and findings by recognized historians on politics society race relations ideology and slavery This book is a fascinating look at one of the pivotal decades in U S history

Gienapp,1982 Writing on such subjects as voter partisanship the road to recovery and the surge of Republican power these historians reach different conclusions but essentially agree on the centrality of the

party system and the importance of ethnocultural issues in the sectional conflict Besides using traditional historiographic techniques some of the authors draw upon the findings and methods of the New political history to illuminate a variety of hitherto ignored or misunderstood aspects of antebellum American politics In the process they offer a new look at some old problems and many new provocative insights into these crucial two decades of American history
