Charting a Course:

Strategic Choices for a New Administration Richard D. Hooker (Jr.), 2016 Excerpt from Charting a Course Strategic

Choices for a New Administration The new administration takes office in a time of great complexity Our new President faces a national security environment shaped by strong currents globalization the proliferation of new poor and weak states as well as nonstate actors an enduring landscape of violent extremist organizations slow economic growth the rise of China and a revanchist Russia a collapsing Middle East and a domestic politics wracked by division and mistrust While in absolute terms the Nation and the world are safer than in the last century today the United States finds itself almost on a permanent war footing engaged in military operations around the world No formal document describes a grand strategy for the United States and indeed many academics deny that one exists Yet a close look at our history as a world power suggests that core interests and how we secure them have remained generally consistent over time If grand strategy rises above particular strategies intended to secure particular objectives many decades of focusing on nuclear deterrence power projection

alliances and partnerships and military and economic strength probably constitute the underpinnings of a coherent grand strategy How we employ and leverage these instruments of national power to protect defend and advance the national interest is after all the essence of grand strategy In a dangerous world these pillars have provided a strong foundation for national security If our domestic politics can achieve consensus on future threats and solutions America is well positioned to lead and prosper in a world that will remain both dangerous and uncertain R D Hooker Jr Director Institute for National Strategic Studies National Defense University Washington D C Related items Policy Analysis in National Security Affairs New Methods for a New Era can be found here <https://bookstore.gpo.gov/products/sku/008/020/01561/0> Operationalizing Counter Threat Finance Strategies can be found here <https://bookstore.gpo.gov/products/sku/008/000/01131/1> **Model for residential house element and material selection by neutrosophic MULTIMOORA method** Edmundas Kazimieras Zavadskas,Romualdas Bausys ,Birute Juodagalviene,Inga Garnyte-Sapranaviciene , This article aims to create a theoretical evaluation model based on decision support methods for the residential house construction materials and elements selection
