and experienced researchers alike Elliott argues that both qualitative and quantitative methods are characterised by a concern with narrative and that our research data can best be analyzed if it is seen in narrative terms In concrete step by step terms she details for the reader how to go about collecting data and how to subject that data to narrative analysis while at the same time placing this process in its wider theoretical context She works across the traditional quantitative qualitative divide to set out the ways in which narrative researchers can uncover such issues as social change causality and social identity She also shows how the techniques and skills used by qualitative researchers can be deployed when doing quantitative research and similarly how qualitative researchers can sometimes profit from using quantitative skills and techniques This book provides both a fascinating and a challenging read What sets this text apart from other books on research methodology and methods is that it does not focus exclusively on either quantitative or qualitative research approaches but rather attempts to bridge the divide The book should be compulsory reading not only for those aspiring to undertake narrative research and those students undertaking higher degree research courses but also for those more experienced researchers wishing to explore contemporary issues in research methods and methodology As a recent recruit to a lecturer practitioner post with little recent experience in the subject area covered by this book I found it met my needs very well I would certainly recommend this book for purchase Dr Andrew Pettipher University of Nottingham UK

Women Analyze Women Elaine Baruch, Elaine Hoffman Baruch, 1991-09 Presented here is a new form of psychoanalysis one that is centered on women as seen by women Women Analyze Women contains interviews with nineteen of the most prominent and innovative women analysts and writers The authors have persuaded them to speak freely on topics such as feminism sexuality love gender differences and sometimes their lives as analysts and analysts' political activists wives and mothers Personal and intimate these sessions cut across theoretical barriers and allow the analysts to speak directly and candidly as the following excerpt from the interview with Joyce McDougall shows Men and women deal with tender and erotic feelings differently If I speak in very simple terms it seems to me that women are constantly eager to stabilize their love relationships and within those their sexual relationships They are always terrified of abandonment rejection and loss The men are terrified of getting caught It is a wonder that the sexes ever get together at all Men are frantic about getting trapped and women are frantic about being left The book offers intriguing provocative and stimulating discussions of critical issues revealing a number of startling differences and remarkable similarities among the more avant garde French analysts and the more traditional Anglo American schools
