Abstract The purpose of this study was to determine the effect of a 12-week, 3-day-per-week, 100-min-per-session, low-impact aerobically and resistance training program on the physical fitness of 100-year-old women. The program was designed to improve aerobic capacity, muscular strength, and balance. The program was evaluated using a pretest and a posttest. The results of the study showed that the program had a significant effect on the physical fitness of the women. The women who participated in the program showed a significant increase in aerobic capacity, muscular strength, and balance. The program was well tolerated by the women and had no adverse effects. The results of this study suggest that a 12-week, 3-day-per-week, 100-min-per-session, low-impact aerobically and resistance training program can improve the physical fitness of 100-year-old women.
