Congress,1994 The Congressional Record is the official record of the proceedings and debates of the United States Congress It is published daily when Congress is in session The Congressional Record began publication in 1873 Debates for sessions prior to 1873 are recorded in The Debates and Proceedings in the Congress of the United States 1789 1824 the Register of Debates in Congress 1824 1837 and the Congressional Globe 1833 1873 **Fathers and Sons in the English Middle Class, c. 1870-1920** Laura Ugolini,2021-04-01 This book explores the relationship between middle class fathers and sons in England between c 1870 and 1920 We now know that the conventional image of the middle class paterfamilias of this period as cold and authoritarian is too simplistic but there is still much to be discovered about relationships in middle class families Paying especial attention to gender and masculinities this book focuses on the interactions between fathers and sons exploring how relationships developed and masculine identities were negotiated from infancy and childhood to adulthood and old age Drawing on sources as diverse as autobiographies oral history interviews First World War conscription records and press reports of violent incidents this book questions how fathers and sons negotiated relationships marked by shifting relations of power as well as by different combinations of emotional entanglements obligations and ties It explores changes as fathers and sons grew older and assesses fathers role in trying to mould sons masculine identities characters and lives It reveals negotiation and compromise as well as rebellion and conflict underlining that fathers and sons were important to each other their relationships a significant if often overlooked aspect of middle class men s lives and identities *Journal of the Senate, State of Florida* Florida. Legislature. Senate,2014 Siblinghood and Sociability in Nineteenth-Century Ulster Shannon Devlin,2025-01-28 This book is an innovative exploration of nineteenth century family life and society The first study of its kind it uses the sibling relationship as a window into Irish society in the past Employing a creative genealogical methodology Shannon Devlin pieces together the lives of twenty five sibling sets from Ulster allowing for an exploration of power emotion and gender in the family She considers families from both Catholic and Protestant backgrounds and in urban and rural contexts shedding new light on the Ulster middle classes during a century of rapid social and economic change Through its emphasis on horizontal family relationships the book uncovers the lived experiences of individuals and reveals how the family could help navigate the social hierarchies and gendered power structures underpinning middle class society It complicates our understanding of family dynamics household formation and cultural performances of sociability and offers an exciting new perspective on aspects of the lifecycle marriage practices inheritance family finances and Irish middle class mobility Exploring the influence of brothers and sisters on everyday life Siblinghood and Sociability in Nineteenth Century

Ulster provides a unique insight into the ways in which family loyalties and obligations intersected with personal reputation aspiration and ambition

DIY Football Peter Kennedy, David Kennedy, 2018-10-11 The intention of the book is to highlight the development of a type of football organisation that falls outside of the well documented elite professional game the most recognizable face of the sport Specifically the focus here will fall upon community based football clubs which have grown out of the grassroots game Well known examples of these clubs in Britain are the Bristol organisation Easton Cowboys and Cowgirls and the Leeds based Republica Internationale both of these clubs have forged links with similarly motivated organisations in other countries who regularly come together in tournaments to express solidarity Collectively these clubs have sometimes been referred to as forming a DIY culture in football Their defining characteristics being variously described as anti commercial democratically constituted advocating social responsibility and inclusiveness and holding an outlook of solidarity that in some cases involves political education This book was originally published as a special issue of Sport in Society

The Societal Foundations of National Competitiveness Michael J. Mazarr, 2022-06-21 Nations rise and fall succeed or fail in rivalries and enjoy stability or descend into chaos because of a complex web of factors that affect competitive advantage One critical component is the package of essential social characteristics of a nation The ultimate story of the Cold War is that the United States was simply a more competitive society than the Soviet Union more energetic more vibrant more innovative more productive more legitimate Through analysis of comparative studies of historical eras and trends historical case studies and the findings of issue specific empirical research the report explores how seven characteristics of a society determine its competitive standing and distinguish dynamic and competitively successful nations If the history surveyed in this report provides an accurate guide to the future the fate of the United States in today's rivalries will not be determined solely or even in significant degree by the numbers of its weapons or amounts of defense spending or how many proxy wars it wins but by the

basic characteristics of its society The author applies the seven leading characteristics that affect national standing to the United States to create a snapshot of where the country stands That application provides some reason for optimism The United States continues to reflect many of these characteristics and the overall synergistic engine more than any other large country in the world However multiple trends are working to weaken traditional U S advantages Several such as the corruption of the national information space pose acute risks to the long term dynamism and competitiveness of the nation raising the worrying prospect that the United States has begun to display classic patterns of a major power on the far side of its dynamic and vital curve

Gender in Twentieth-Century Eastern Europe and the USSR Catherine

Baker,2016-09-29 A concise and accessible introduction to the gender histories of eastern Europe and the Soviet Union in the 20th century These essays juxtapose established topics in gender history such as motherhood masculinities work and activism with newer areas such as the history of imprisonment and the transnational history of sexuality By collecting these essays in a single volume Catherine Baker encourages historians to look at gender history across borders and time periods emphasising that evidence and debates from Eastern Europe can inform broader approaches to contemporary gender history

The Welfare State Generation Eve Worth,2021-12-16 Women born in mid twentieth century Britain were the welfare state generation not only were their lives fundamentally shaped by the welfare state they helped to transform it In this ground breaking work Eve Worth examines the impact of the welfare state on the life course of women whose opportunities and social experiences were formed by it in the post 1945 period Centred around an oral history study this book argues that the welfare state was so central to the lives of women born in Britain between the late 1930s and early 1950s that they should be considered the welfare state generation The post war expansion of the welfare state was one of the most transformative political changes of the twentieth century yet we know little about its development in practice nor its long term impact on those who grew up within it Using a ground breaking life history methodology to examine women from their birth in the long 1940s to retirement in the mid 2010s it includes thirty six original life history interviews alongside social surveys and the Census for wider context By deploying a cross class approach this book moves the discussion on from just looking at university educated women to include women often overlooked in gender and social studies Re conceptualising the causes of social mobility in post war Britain exploring a new understanding of work and an updated periodisation of welfare state development The Welfare State Generation offers a new approach to the history of class and gender arguing that we need to move beyond the focus on women s emotions and personal identity to consider their experiences and relationships with the state as employer educator and provider

Africa in Global International Relations Paul-Henri Bischoff,Kwesi Aning,Amitav Acharya,2015-10-05 Recent scholarship in International Relations IR has started to study the meaning and implications of a non Western world With this comes the need for a new paradigm of IR theory that is more global open inclusive and able to capture the voices and experiences of both Western and non Western worlds This book investigates why

Africa has been marginalised in IR discipline and theory and how this issue can be addressed in the context of the emerging Global IR paradigm To have relevance for Africa a new IR theory needs to be more inclusive intellectually negotiated and holistically steeped in the African context In this innovative volume each author takes a critical look at existing IR paradigms and offers a unique perspective based on the African experience Following on from Amitav Acharya and Barry Buzan's work *Non Western International Relations Theory* it develops and advances non Western IR theory and the idea of Global IR This volume will be of key interest to scholars and students of African politics international relations IR theory and comparative politics

Beastly Morality Jonathan K. Crane, 2015-12-01 We have come to regard nonhuman animals as beings of concern and we even grant them some legal protections But until we understand animals as moral agents in and of themselves they will be nothing more than distant recipients of our largesse Featuring original essays by philosophers ethicists religionists and ethologists including Marc Bekoff Frans de Waal and Elisabetta Palagi this collection demonstrates the ability of animals to operate morally process ideas of good and bad and think seriously about sociality and virtue Envisioning nonhuman animals as distinct moral agents marks a paradigm shift in animal studies as well as philosophy itself Drawing not only on ethics and religion but also on law sociology and cognitive science the essays in this collection test long held certainties about moral boundaries and behaviors and prove that nonhuman animals possess complex reasoning capacities sophisticated empathic sociality and dynamic and enduring self conceptions Rather than claim animal morality is the same as human morality this book builds an appreciation of the variety and character of animal sensitivities and perceptions across multiple disciplines moving animal welfarism in promising new directions

Playing Big Tara Mohr, 2015-12-29 In her coaching and programs for women Tara Mohr saw how women were playing small in their lives and careers were frustrated by it and wanted to play bigger She has devised a proven way for them to achieve their dreams by playing big from the inside out Amazon.com

Regulation Theory and Australian Capitalism Brett Heino, 2017-11-22 The end of the post World War II long boom in the mid 1970s proved the beginning of a process of political economic change that has fundamentally transformed labour law both in Australia and across the developed world more generally This is a phenomenon with deep ramifications for social justice The dissolution of productive

industry the fragmentation of employment categories the rise of profound employment precarity and an increasingly hostile legal environment for trade unionism have been of immense significance for key social justice issues including income inequality the rise of a new working underclass and the marginalization of organised labour By combining the concepts of the Parisian Regulation Approach with an explicitly Marxist jurisprudence this study offers a theoretically rigorous yet empirically sensitive account of legal transition with key case studies in the metal food processing and retail sectors Given the similar development logic of post World War II capitalism in Western societies this theory although operationalised in the Australian context can be used in the effort to explain labour law change more broadly **Japanese New York** Olga

Kanzaki Sooudi, 2014-10-31 Spend time in New York City and soon enough you will encounter some of the Japanese nationals who live and work there young English students office workers painters and hairstylists New York City one of the world's most vibrant and creative cities is also home to one of the largest overseas Japanese populations in the world Among them are artists and designers who produce cutting edge work in fields such as design fashion music and art Part of the so called creative class and a growing segment of the neoliberal economy they are usually middle class and college educated They move to New York for anywhere from a few years to several decades in the hope of realizing dreams and aspirations unavailable to them in Japan Yet the creative careers they desire are competitive and many end up working illegally in precarious low paying jobs Though they often migrate without fixed plans for return nearly all eventually do and their migrant trajectories are punctuated by visits home Japanese New York offers an intimate ethnographic portrait of these Japanese creative migrants living and working in NYC At its heart is a universal question how do adults reinvent their lives In the absence of any material or social need what makes it worthwhile for people to abandon middle class comfort and home for an unfamiliar and insecure life Author Olga Sooudi explores these questions in four different venues patronized by New York's Japanese a grocery store and restaurant where hopeful migrants work part time as they pursue their ambitions a fashion designer's atelier and an art gallery both sites of migrant aspirations As Sooudi's migrant artists toil and network biding time until they make it in their chosen industries their optimism is complicated by the material and social limitations of their lives The story of Japanese migrants in NYC is both a story about Japan and a way of examining Japan from beyond its borders The Japanese presence abroad a dynamic process involving the moving settling and return to Japan of people and their cultural products is still underexplored Sooudi's work will help fill this lacuna and will contribute to international migration studies to the study of contemporary Japanese culture and society and to the study of Japanese youth while shedding light on what it means to be a creative migrant worker in the global city today *Growing up and going out* Sarah Kenny, 2025-02-11 In the decades following the Second World War youthful sociability was remade as young people across Britain flocked to newly opened coffee bars beat clubs and discos These spaces increasingly unknown and unfamiliar to the adults who passed by them played a remarkable role in reshaping town and city centres after dark as sites of leisure and

recreation Telling the history of youth in post war Britain from the ground up through the towns and cities that young people moved through this book traces how the new spaces of post war youth leisure transformed both young people s relationship with their local environment and adults perceptions of the possibilities and dangers of modern leisure Growing up and going out offers a timely study of youth commerce and leisure that explores the reimagination remaking and regulation of the post war city after dark

Making of the Tunisian Revolution Gana Nouri Gana,2013-09-07 From late 2010 to the present day the Arab world has been shot through with insurrection and revolt As a result Tunisia is now seen as the unlikely birth place and exemplar of the process of democratisation long overdue in the Arab world Mixing political historical economic social and cultural analyses and approaches these essays reflect on the local regional and transnational dynamics together with the long and short term factors that when combined set in motion the Tunisian revolution and the Arab uprisings Above all the book maps the intertwined genealogies of cultural dissent that have contributed to the mobilisation of protesters and to the sustenance of protests between 17 December 2010 and 14 January 2011 and beyond
