Seen Heard Conversations And Commentary On Contemporary Conversation:

Tracing Private Conversations in Early Modern Europe Johannes Ljungberg, Natacha Klein Käfer, 2024-03-01 This open access book provides a multifold exploration of how people in early modern Europe understood conducted and actively used private conversations From sharing personal matters to discussing delicate secrets all layers of early modern society had their motives for wanting to keep certain exchanges out of public eyes and ears and ways of trying to achieve this Detecting such instances in historical sources typically becomes a complex pursuit full of subtle references that require creative approaches especially when it comes to more informal practices Yet in a reading against the grain different sources can offer us hints of how conversations took place in private The book consists of a historiographical and methodological introduction to the study of private conversations followed by ten case studies from a variety of cities villages and countryside across early modern Europe The concluding epilogue suggests some pathways to further explore the terrain of how people have talked in private in past societies

Gay Artists in Modern American Culture Michael S. Sherry, 2007-09-10 Today it is widely recognized that gay men played a prominent role in defining the culture of mid twentieth century America with such icons as Tennessee Williams Edward Albee Aaron Copland Samuel Barber Montgomery Clift and Rock Hudson defining much of what seemed distinctly American on the stage and screen Even though few gay artists were out their sexuality caused significant anxiety during a time of rampant antihomosexual attitudes Michael Sherry offers a sophisticated analysis of the tension between the nation s simultaneous dependence on and fear of the cultural influence of gay artists Sherry places conspiracy theories about the homintern homosexual international taking control and debasing American culture within the paranoia of the time that included anticommunism anti Semitism and racism Gay

artists he argues helped shape a lyrical often nationalist version of American modernism that served the nation's ambitions to create a cultural empire and win the Cold War. Their success made them valuable to the country's cultural empire but also exposed them to rising antigay sentiment voiced even at the highest levels of power for example by President Richard Nixon. Only late in the twentieth century Sherry concludes did suspicion slowly give way to an uneasy accommodation of gay artists place in American life

Conversation Analysis and Sociological Theory Melisa Stevanovic, David Inglis, Anssi Peräkylä, Emmi Koskinen, 2024-08-22 The relations between Conversation Analysis (CA) sociology and social theory are complex often ambiguous and have sometimes been rather fraught. While there might be some relatively high level of agreement amongst their practitioners on what CA is what it does and what it is meant to achieve that is not so much the case for the more open and broad terrains of sociology and social theory. Moreover each of the domains in question has changed in orientation composition and academic location since CA first came into existence in the late 1960s. While initially a child of sociology as CA has matured and extended its substantive and methodological reach it has become a large intellectual domain in its own right with inputs from and relevance for a host of other disciplines notably linguistics anthropology and psychology. It is now no longer at all clear how CA relates to sociology and social theory what each side currently does or what it could bring to the other in the future

Humanism, Capitalism, and Rhetoric in Early Modern England Lynette Hunter, 2022-01-19 This book offers an interdisciplinary approach to concepts of the self associated with the development of humanism in England and to strategies for both inclusion and exclusion in structuring the early modern nation state. It addresses writings about rhetoric and behavior from 1495-1660 beginning with Erasmus' work on sermo or the conversational rhetoric between friends which considers the reader as an absent audience and following the transference of this stance to a politics whose broadening democratic constituency needed a legitimate structure for governance at a distance. William George Jordan, Adr Schade van Westrum, 1892 Modern European cinema and love Richard Rushton, 2023-05-23
Modern European cinema and love examines nine European directors whose films contain stories about romantic love and marriage. The directors are Jean Renoir, Ingmar Bergman, Alain Resnais, Michelangelo Antonioni, Agnès Varda, François Truffaut, Federico Fellini, Jean-Luc Godard, and Eric Rohmer. The book approaches questions of love and marriage from a philosophical perspective, applying the ideas of authors such as Stanley Cavell, Leo Bersani, Luce Irigaray, and Alain Badiou, while also tracing key concepts from Freudian psychoanalysis. Each of the filmmakers engages deeply with notions of modern love and marriage, often in positive ways but also in ways that question the institutions of love, marriage, and the couple.
