Directory of Distance Learning Opportunities Modoc Press, Inc.,2003-02-28 This book provides an overview of current K 12 courses and programs offered in the United States as correspondence study or via such electronic delivery systems as satellite cable or the Internet The Directory includes over 6 000 courses offered by 154 institutions or distance learning consortium members Following an introduction that describes existing practices and delivery methods the Directory offers three indexes Subject Index of Courses Offered by Level Course Level Index Geographic Index All information was supplied by the institutions Entries include current contact information a description of the institution and the courses offered grade level and admission information tuition and fee information enrollment periods delivery information equipment requirements credit and grading information library services and accreditation *Research in Education* ,1974 *The Science Teachers Bulletin* ,1998 *New York State Education* ,1928 **Proceedings of the ... Annual Meeting of the New York State Science Teachers Association** New York State Science Teachers Association,1908 **The Role of Public Policy in K-12 Science Education** George E. DeBoer,2011-01-01 The goal of this volume of Research in Science Education is to examine the relationship between science education policy and practice and the special role that science education researchers play in influencing policy It has been suggested that the science education research community is isolated from the political process pays little attention to policy matters and has little influence on policy But to influence policy it is important to understand how policy is made and how it is implemented This volume sheds light on the intersection between policy and practice through both theoretical discussions and practical examples This book was written primarily about science education policy development in the context of the highly decentralized educational system of the United States But because policy development is fundamentally a social activity involving knowledge values and personal and community interests there are similarities in how education policy gets enacted and implemented around the world This volume is meant to be useful to science education researchers and to practitioners such as teachers and administrators because it provides information about which aspects of the science education enterprise are affected by state local and national policies It also provides

helpful information for researchers and practitioners who wonder how they might influence policy In particular it points out how the values of people who are affected by policy initiatives are critical to the implementation of those policies **Journal of Geoscience Education** ,2007 **The art of lesson planning** Erica Blatt,Jinyoung Kim,2011-12-30 This booklet is written for pre service teachers in an education program who are in the process of learning how to write a lesson plan This booklet is an introduction to the basic format of a lesson plan and includes a specific structure for writing a lesson plan We have included examples in each section as well as exercises to help pre service teachers gain a better understanding of what to include and not include in each section **English Learners Left Behind** Kate Menken,2008-02-27 In the wake of recent federal legislation entitled No Child Left Behind high stakes standardized testing for accountability purposes is being emphasized in educational systems across the U S for all students including English Language Learners ELLs Yet language proficiency mediates test performance so ELLs typically receive scores far below those of other students This book explores how tests have become de facto language policy in schools shaping what is taught in school how it is taught and in what language s it is taught In New York City while most schools responded to testing by increasing the amount of English instruction offered to ELLs a few schools have preserved native language instruction instead Moreover this research documents how tests are a defining force in the daily lives of ELLs and the educators who serve them STEM Education Reform in Urban High Schools Margaret A. Eisenhart,Lois Weis,2022-08-16 STEM Education Reform in Urban High Schools gives a nuanced view of the obstacles marginalized students face in STEM education and explores how schools can better support STEM learners Reporting the results of a nine year ethnographic study the book chronicles the outcomes of various STEM education reforms in eight public high schools with nonselective admissions policies and high proportions of low income and minoritized students four schools in Denver Colorado and four in Buffalo New York Margaret A Eisenhart and Lois Weis follow the educational experiences of high ability students from each school tracking the students high school to college to career trajectories Through interviews with students educators and parents as well as classroom and campus observations the authors identify patterns in the educational paths of students who go on to great success in STEM occupations and those who do not They discuss common mechanisms that undermine the stated goals of STEM programming opportunity structures that are inequitable erosion of program quality and diversion of resources as well as social and cultural constructs the figured worlds of STEM that exclude many minoritized students with potential for success from the STEM pipeline On a broader scope the book explores how and why STEM education reform efforts fail and succeed With an eye toward greater access to STEM learning the authors show how lessons of past measures can inform future STEM initiatives **New York State Education Department Bulletin** ,1922 Testing for Learning Ruth Mitchell,2010-05-11 Arguing that traditional test based evaluation has a negative effect on many students this book describes new methods of assessing student performance **Historical Development of the New York State High School System** Walter John

Gifford,1922 Records & Briefs New York State Appellate Division , Assessing Technology Kimbell, Richard,1997-09-01 For thirty years the UK has been evolving a distinctive technology curriculum In part one of this book Kimbell explores the thorny issues of assessment that have been raised by and that helped to define the technology curriculum in the UK In part two practice in the UK is compared to that in the USA Germany Taiwan and Australia and Kimbell draws together the lessons learned in the UK with those that might reasonably be learned from the 4 case study nations **School Choice Or Best Systems** Margaret C Wang,Herbert J. Walberg,2001-03 This book addresses one of the most urgent questions in American society today one that is currently in the spotlight and hotly debated on all sides Who shall rule the schools parents or educators School Choice or Best Systems What Improves Education presents an overview of research and practical applications of innovative even radical school reforms being implemented across the United States These fall along a continuum ranging from parental choice to best systems At the one extreme are schools of choice which allow parents to choose and even govern schools for their children These include charter schools traditional private and parochial schools schools that are privately governed but publicly funded through vouchers and those that are funded by private scholarships provided by both corporations and wealthy individuals At the other extreme are centralized state or district systems based on reform initiatives and new systems of education that have been developed in response to views of citizens and legislators that schools can do much better These schools which specify uniform goals policies and programs for each school are highly innovative systems based on research or representing advanced thinking about what works and have attracted wide interest Important questions related to schools of choice and best systems are addressed How can we choose among schools of choice and best systems Among the various approaches within each of these alternatives How can we understand their guiding principles and operational practices What results do they produce How can we evaluate their claims In choosing among the alternatives how should issues of student achievement accountability costs feasibility and equity be factored in This volume brings together leading researchers and education leaders who have carried out the latest studies and advances in the field providing a forum for them to set forth the arguments and evidence that will be most helpful in making choices for tomorrow s schools It does not provide a single right answer values and preferences differ across parents schools districts and states However there are benefits for all from seeing the rigorous research challenging thinking and alternate points of view this volume presents *Preparing Informal Science Educators* Patricia G Patrick,2017-01-16 This book provides a diverse look at various aspects of preparing informal science educators Much has been published about the importance of preparing formal classroom educators but little has been written about the importance need and best practices for training professionals who teach in aquariums camps parks museums etc The reader will find that as a collective the chapters of the book are well related and paint a clear picture that there are varying ways to approach informal educator preparation but all are important The volume is divided into five topics Defining Informal Science Education Professional

Development Designing Programs Zone of Reflexivity The Space Between Formal and Informal Educators and Public Communication The authors have written chapters for practitioners researchers and those who are interested in assessment and evaluation formal and informal educator preparation gender equity place based education professional development program design reflective practice and science communication Readers will draw meaning and usefulness from the array of professional perspectives and be stimulated to begin a quest to scaffold programs and professional development around the frameworks described in this book
