The Palgrave Handbook of Small Arms and Conflicts in Africa Usman A. Tar, Charles P. Onwurah, 2021-04-05 This handbook provides critical analyses of the theory and practices of small arms proliferation and its impact on conflicts and organized violence in Africa. It examines the terrains, institutions, factors and actors that drive armed conflict and arms proliferation and further explores the nature, scope and dynamics of conflicts across the continent as well as the extent to which these conflicts are exacerbated by the proliferation of small arms. The volume features rich analyses by contributors who are acquainted with and widely experienced in the formal and informal structures of arms proliferation and control and their repercussions on violence, instability and insecurity across Africa. The chapters dissect the challenges of small arms and light weapons in Africa with a view to understanding roots, causes and drivers and generating a fresh body of analyses that adds value to the existing conversation on conflict management and peacebuilding in Africa. With contributions from scholars, development practitioners, defence and security professionals and civil society activists, the handbook seeks to serve as a reference for students, researchers and policy makers on small arms proliferation, control and regulation, defence and security practitioners and those involved in countering violence and managing conflicts in Africa.

African Political Economy in the Twenty-First Century Ernest T. Aniche, Stephen N. Azom, Emeka C. Iloh, 2023-09-12 African Political Economy in the Twenty First Century: Theories, Perspectives and Issues, edited by Emeka C. Iloh, Ernest T. Aniche and Stephen N. Azom, fills the gap in the discourses on African political economy from an African perspective. Since the end of colonialism in the second half of the twenty first century, a wide ranging debate has opened on the future of African development and the nature and character of its political economy, especially as it concerns its web of relationships in the international political and economic system. Two decades into the twenty first/21st century, the debate still rages on and is likely to continue for a long time. This book contributes to the debate by addressing the important question of how African countries can strategically and tactically approach global political economy at multilateral, continental and regional levels in view of North-South versus South-South configurations. African Political Economy in the Twenty First Century further suggests how African countries can effectively utilize global forces to Africa's advantage in advancing domestic, regional and continental development objectives.

Contemporary Security Governance in Nigeria Al Chukwuma Okoli, Folahanmi Aina, 2024-08-22 Contemporary Security Governance in Nigeria: Themes and Perspectives examines the theory, practice and challenges of contemporary security governance in Nigeria and argues for the prioritization of security governance in state affairs. understanding the contemporary security environment and in particular how the military component fits into the strategic picture within an international context for small states It shows that small states must be aware of the different limitations for existing strategic options for the various actors involved It also outlines the strategic utility of potential niche capabilities and how elements within the Norwegian Armed Forces can take on a strategic enabling role for Norway bilateral partners and even coalitions in future conflicts Small State Irregular Warfare in the Twenty First Century serves as both a guide and a handbook on how small states might utilize SSA as an instrument of national power to meet national strategic objectives

Women's Political Visibility and Media Access Oladokun Omojola,2014-06-12 The constitutions of most countries frown at gender discrimination Local multinational and multilateral organizations in many developed and developing nations have instituted policies and taken actions that address cases of injustice against women But gender inequity appears to be an issue beyond what constitutional provisions and corporate strategies can address How for instance does a statutory provision guarantee the equal visibility of men and women in a news report especially in a neoliberal democracy where the general patriarchal character of the media aligns with the logic of commercialism which prioritizes profit and targets mainly those who have the means of purchase The invisibility of women in the media is a global issue and a great concern in Africa Women's Political Visibility and Media Access The Case of Nigeria however is about a country of over 160 million people a population roughly divided equally between male and female The book through empirical analyses and qualitative discourses agglomerates several perspectives regarding the visibility of women in the turbulent Nigerian political terrain and the response of the media in that direction in a concerted effort to resolve the burning issues of gender equality in Nigeria The book assesses the impact of aggressive tactics from women in the political arena conscious reporting of women by journalists and the increased use of ICTs by women as practical ways of bridging this wide gap
