**Hands-On Mathematics, Grade 2** Jennifer Lawson, 2006 This teacher resource offers a detailed introduction to the Hands On Mathematics program guiding principles implementation guidelines an overview of the processes that grade 2 students use and develop during mathematics inquiry and a classroom assessment plan complete with record keeping templates and connections to the Achievement Levels outlined in the Ontario Mathematics Curriculum It also provides strategies and visual resources for developing students mental math skills Each unit is divided into lessons that focus on specific curricular expectations Each lesson has materials lists activity descriptions questioning techniques problem solving examples activity centre and extension ideas assessment suggestions activity sheets and visuals Portage Main Press **ENC Focus**, 2001 *Becoming Literate in Mathematics and Science*, 2001 *Cases on Instructional Technology in Gifted and Talented Education* Lennex, Lesia, Nettleton, Kimberly Fletcher, 2014-09-30 As new classroom resources are developed educators strive to incorporate digital media advancements into their curriculum to provide an enriched learning experience for students with exceptional intelligence as well as students in need of supplementary instruction Though the resources exist their effective use in the classroom is currently lacking *Cases on Instructional Technology in Gifted and Talented Education* provides educators with real life examples and research based directions for the use of digital media resources in classrooms at all academic levels This reference work will appeal to educators and researchers interested in enriching P 12 classrooms in order to extend student learning and promote effective e learning in the classroom *Project-Based Learning Applied to the Language Classroom* Juliana Franco Tavares/ Louise Emma Potter, 2018-03-05 In *Project Based Learning Applied to the Language Classroom* the authors propose a way to develop PBL in the language classrooms taking into account all of the obstacles and specifics involved in teaching a foreign language It is about teaching English as a second or foreign language using Project Based Learning PBL We approach this combination because many people seem to think about implementing PBL in their language classes and ask questions about how to do it but feel that there aren't enough materials based on this methodology In fact most researchers and writers we have come across discuss the applications of PBL in the students mother tongue to subjects such as Math History Literature Social Studies and Science However there are few published works about the specifics of PBL in foreign language classes Besides it seems obvious to us that the main difficulty in developing projects in a second or foreign language lies exactly on the fact that communication may be hindered when students do not have enough knowledge in the target language **An Archaeology of the Bantu Expansion** Peter R. Coutros, Jessamy H. Doman, Igor Matonda Sakala, Koen Bostoen, 2025-07-22 The Bantu Expansion is one of the most intriguing issues in African history Based on extensive fieldwork in the Democratic Republic of the Congo and laboratory analysis this book provides the most comprehensive up to date and multi proxy account of the first Bantu speakers south of the Congo rainforest This volume begins with state of the art reviews of the archaeological palaeoenvironmental genetic linguistic and

oral historical contexts of the Bantu Expansion and includes evidence from over 150 previously unknown archaeological sites with extensive analyses of pottery lithics soil stable isotopes phytoliths charcoal and human remains Seven appendices contain the full metadata radiometric and geographical data for each site and comparative language data The volume concludes with a sweeping interdisciplinary reconstruction of the first Bantu speaking settlers in the Kwilu Kasai region and rethinks how farming climate change and contact with Central African hunter gatherers and Ubangi speakers impacted their lifeworld This book is indispensable for scholars and students of Africa from a wide variety of fields such as archaeology palaeoecology linguistics population genetics history and anthropology and of considerable interest to scientists active in other parts of the world All who think African history matters will find it a valuable source
