Vector Semantics András Kornai, 2023-01-07 This open access book introduces Vector semantics which links the formal theory of word vectors to the cognitive theory of linguistics The computational linguists and deep learning researchers who developed word vectors have relied primarily on the ever increasing availability of large corpora and of computers with highly parallel GPU and TPU compute engines and their focus is with endowing computers with natural language capabilities for practical applications such as machine translation or question answering Cognitive linguists investigate natural language from the perspective of human cognition the relation between language and thought and questions about conceptual universals relying primarily on in depth investigation of language in use In spite of the fact that these two schools both have linguistics in their name so far there has been very limited communication between them as their historical origins data collection methods and conceptual apparatuses are quite different Vector semantics bridges the gap by presenting a formal theory cast in terms of linear polytopes that generalizes both word vectors and conceptual structures by treating each dictionary definition as an equation and the entire lexicon as a set of equations mutually

constraining all meanings Theoretical Linguistics in the Pre-University Classroom Alice Corr, Anna Pineda, 2023-07-19

Theoretical Linguistics in the Pre University Classroom illuminates the untapped potential of theoretical linguistics in remaking encounters with the workings of language in pre university classrooms The collection showcases the latest research and best practice emerging from the Euro American movement of Linguistics in Schools *ETINED - Volume 1 - 7th Session of the Prague Forum* Council of Europe, 2016-11-01 A quality education must be free of corruption Further to the clear political commitment made by the European Ministers of Education at the Helsinki Ministerial Conference in April 2013 the Council of Europe launched its Platform on Ethics Transparency and Integrity in Education ETINED ETINED is a network of specialists representing the 50 States Parties to the European Cultural Convention which carries out initiatives at European regional and national level to take effective action against corruption and encourage all the relevant stakeholders in society to commit fully to a set of fundamental ethical principles for public and professional life This publication reflects the discussions held at the 7th Session of the Prague Forum and provides strong evidence of the drive in Europe to promote high quality corruption free education based on common ethical principles Offering many national examples and good practice in this area it also raises several issues relating to the ethical behaviour of all education players academic integrity and plagiarism and the problem of the recognition of qualifications obtained by distance and online learning It also covers how ETINED came into being how it has developed and how it is applied in various countries Tomorrow's Learning: Involving Everyone. Learning with and about Technologies and Computing Arthur Tatnall, Mary Webb, 2018-01-25 This book constitutes the refereed post conference proceedings of the 11th IFIP TC 3 World Conference on Computers in Education WCCE 2017 held in Dublin Ireland in July 2017 The 57 revised full papers and 10 short papers were carefully reviewed and selected from 116 submissions during two rounds of reviewing and improvement The papers are organized in the following topical sections futures of technology for learning and education innovative practices with learning technologies and computer science education and its future focus and development Also included is The Dublin Declaration which identifies key aspects of innovation development successes concerns and interests in relation to ICT and education *Teaching: Dilemmas, Challenges & Opportunities* Robyn Ewing, Lisa Kervin, Christine Glass, Brad Gobby, Rosie Le Cornu, Susan Groundwater-Smith, 2019-09-26 We have not sought in this book to define best practice for you but have rather challenged you to think about ways in which to teach intelligently insightfully and respectfully How does a teacher deal with a student s challenging behaviour in the classroom Is it fair to adopt information and communication technologies that favour students who have access to sophisticated devices such as tablets in their own home How during the professional experience is an education student to act when his or her beliefs about learning are not congruent with those of the supervising teacher Should students be grouped in terms of their ability These and many more issues arise daily in our early childhood primary and secondary learning environments Teaching 6e takes a holistic approach to classroom teaching and learning It considers

the complexities and opportunities embedded in meeting learners needs in diverse and ever changing contexts It encourages pre service teachers to become active learners of teaching how to think like teachers and to consider the fundamental aspects of teaching It directs pre service teachers to useful teaching resources in text in references and online Case studies and reflection opportunities encourage pre service teachers to consider their own strengths and issues the diversity of learning styles in their students their school and wider community as well as government and ethical requirements It raises student awareness of what it really means to teach and how they can do it Students will continue to refer to this well researched and easy to use text throughout their qualification in their professional placement and into their teaching career
