The Report: Kuwait 2016 Oxford Business Group, 2016-09-16 Home to the largest per capita reserves and fourth largest total reserves of crude oil within OPEC Kuwait s public finances have suffered in 2016

following the rapid decline in oil prices which drove oil revenues down from 108.6bn in 2013 to 51.8bn in 2015. Despite this, Kuwait has resisted significant budgetary cutbacks; spending levels in 2016 were cut by just 1.6% and the considerable financial buffers built up from budget surpluses in the years leading up to 2014 are expected to cushion the budget deficit. The country continues to push ahead with key public investments, with Parliament allocating 155bn to the Kuwait Development Plan 2015-20 to fund infrastructure, utilities and housing developments. The plan focuses on further integrating the private sector into areas of the economy traditionally under state control and aims to raise the non-oil sector's GDP contribution to 64% in 2015-20 up from an average of 45.1% in 2010-13. Elsewhere, promising moves are being made to cut state subsidies, with the government opting to liberalise diesel and kerosene prices and reduce subsidies on aviation fuel in January 2015, generating savings equal to 0.3% of GDP.

The Report: Saudi Arabia 2018, Key initiatives include a privatisation programme which would see the divestment of a number of state-owned giants such as the partial listing of Aramco, the creation of the world's largest sovereign wealth fund and the increased participation of women in the job market. The Kingdom has played a key role too on the international stage in 2017, becoming the first country to host President Trump, a visit which resulted in renewed trade and investment commitments on both sides. Meanwhile, the country's importance as a trading hub continues to grow thanks to both the various infrastructural upgrades that are taking place to its ports and airports as well as its geographical advantage as a connector of three continents and its proximity to the Red Sea, through which 10% of world trade travels.

Arab Oil & Gas, 2007 Local Content Oil and Gas Law in Africa Pereoweie Subai, 2019-01-10. Examining local content law and policy in the oil and gas industry, this book uses Nigeria as a primary case study, comparing its approach to countries such as Brazil and Norway which have also adopted local content laws in relation to their gas and oil industries. In considering various aspects of local content law and policy as they apply to the oil and gas industry, the book examines the factors behind the formulation of local content policies by petroleum-producing states and the various strategies they have employed to implement them. It analyses arguments against local content requirements from the perspective of international trade and investment law and from liberal market economic theorists who argue against its overall usefulness. The book highlights salient aspects of the oil and gas industry such as regulation, national oil companies, treatment of minorities and policy formulation and implementation.
