Enhanced Palliative Care: A handbook for paramedics, nurses and doctors Neil Pryde, 2022-01-11 Specifically designed to enhance your knowledge and skills within generalist palliative care this informative textbook provides a comprehensive overview of the principle areas you may encounter whilst working with adult palliative and end of life patients and their families The development of the text has been backed by Macmillan Cancer

Support and each chapter has been written by a range of specialist and generalist authors. The topics covered include approaches to palliative care and symptom management in a wide range of conditions and populations with chapters linked to case studies to encourage interactive learning and understanding. Communication skills are also highlighted to help aid confidence when engaging in open and difficult conversations. The text is in line with Scottish Palliative Care Guidelines and the NES Framework for Palliative and End of Life Care. The book may either be used as course reading for relevant training programmes such as the Enhanced Palliative Care course as well as by healthcare professionals hoping to develop their skills and practice. It is aimed at anyone involved in management and prescribing within non specialist palliative care both in hospitals and in the community including paramedics, nurses, doctors, pharmacists and other key health professionals.

Oxford Textbook of Communication in Oncology and Palliative Care David William Kissane, Barry D. Bultz, Phyllis N. Butow, Carma L. Bylund, Susie Wilkinson, 2017. Communication is a core skill for medical professionals when treating patients. Cancer and palliative care present some of the most challenging clinical situations. This book provides evidence based guidelines alongside case examples, tips and strategies to achieve effective patient centred communication. Surgical Oncology Graeme J. Poston, Lynda Wyld, Riccardo A. Audisio, 2016-11-25. Surgical oncology is now a recognized specialty in the US and several European countries and cancer surgery takes up a significant part of any general surgeon's workload. This thoroughly updated second edition of this bestseller is officially endorsed as a textbook for the syllabus and curriculum of the UEMS examination in Surgical Oncology which is administered by ESSO European Society for Surgical Oncology. The examination is for trainees at the end of training or established consultants seeking to expand their accreditation.

Oncologic Emergency Medicine Knox H. Todd, Charles R. Thomas, Jr., Kumar Alagappan, 2021-04-22. The expanded second edition of this key clinical reference provides the most up to date and comprehensive review of oncologic emergencies. It covers the diagnosis and management of the full range of emergencies caused directly by cancer and or treatment including chemotoxicity, radiotoxicity and post surgical complications as well as transplant related issues and toxicities of novel antineoplastic agents and the new immunotherapies. The book also shows how the entire spectrum of clinical medicine is brought to bear in the care of cancer patients in the unique setting of the emergency department. ED from health promotion and prevention to treatment and palliative care. Recognizing the multiple overlapping contexts in which emergency care of cancer patients occurs, the book addresses clinically crucial interdisciplinary topics such as the ethics of ED cancer care, analgesic misuse and abuse, informatics, quality improvement and more. Finally, perspectives on care system and social forces that shape ED cancer care such as cancer care disparities and care models frame the book as a whole. Edited and written by world renowned experts in emergency medicine and oncology, the Second Edition of *Oncologic Emergency Medicine: Principles and Practice* is the definitive resource for emergency physicians, oncologists, internists, family physicians, emergency nurses, nurse practitioners, physician assistants and policy makers as well as pre and postgraduate

trainees **Principles and Practice of Grief Counseling, Third Edition** Darcy L. Harris, Howard R.

Winokuer, 2019-11-11 This core introductory text with a focus on clinical application combines the knowledge and skills of counseling psychology with current theory and research in grief and bereavement. The third edition is updated to address issues related to the developmental aspects of grief including grief in children and young people, grief as a lifespan concept, and grief in an increasingly aging demographic. It describes new therapeutic approaches and examines the neurological basis of grief as well as trauma from disruption and loss. Also emphasized is the role of diversity along with cultural considerations in grief counseling. Instructor's resources include a Test Bank, Instructor's Manual, and PowerPoint slides. User friendly while grounded in the latest research and theoretical constructs, the text offers such pedagogical aids as learning objectives, practice examples, glossary terms, and questions for reflection in each chapter. Above all, the book addresses grief counseling and support in a way that is informed and practical. The content explores concepts relevant to complicated grief while differentiating the normal human experience of grief from mental disorders. Purchase includes digital access for use on mobile devices and computers. NEW TO THE THIRD EDITION: Updated research and content on attachment and grieving styles; Expansion of social issues impacting grief including political changes, environmental concerns, cultural differences, and exposure to terrorism; New theory, research, and practice for grief in non-death losses; New information on diversity and grief; the role of grounding and contemplative practices; and grief and developmental perspectives across the lifespan. Use of technology in both professional and informal grief support. New case studies with additional case scenarios for real-world application. Practice examples containing clinical application information in each chapter. KEY FEATURES: Focuses on clinical application. Combines the knowledge and skills of counseling psychology with current theory and research in grief and bereavement. Written in easy-to-understand language with emphasis on practical application. Includes learning objectives, practice examples, glossary terms, and questions for reflection. Supplemental Instructor's Manual, Test Bank, and PowerPoints included.

included **Hematology/Oncology Secrets** Marie E. Wood, George K. Philips, 2003 You asked for a new edition. Here it is, better than ever. Not only have many of the same experts in hematology and oncology returned to update their chapters, but new specialists have joined the team, rounding out this edition's detailed coverage of cancer treatment, palliative care, blood disorders, genetic counseling, and more. New to this edition are skeletal complications of malignancy, fatigue in the cancer patient, and targeted molecular therapy.
