W. Zeylmans van Emmichoven,1983-03 A new psychology of the human soul Use of the word soul to denote the inner world of human

experience has not been fashionable in the psychology of recent times However as Zeylmans van Emmichoven stresses in this groundbreaking study human inner life is always active as a whole entity which calls for recognition of the soul as a significant aspect of the human entity Drawing on the works of Goethe Franz Brentano Edmund Husserl Max Scheler and Rudolf Steiner this original approach to psychology uses the soul s own self perception as the method of clarifying the mysteries of the inner life The soul as an inner world participates in two worlds an external world and a still deeper interior world The soul is revealed as a mediator between the outer physical world including the body and the inner core of the human being the I or true self Through its intentional relationship to these two worlds an ever shifting stream of dynamic polarities courses continuously through the soul love hate joy sorrow pleasure displeasure desire satisfaction laughing weeping life consciousness Many soul processes are explored in this context including doubt will mental images perceiving judgment and decision time and space experience and sexual identity as well as how the soul expresses itself in the language of dreams in everyday speech in posture in temperament and in character In addition Van Emmichoven proposes yet another dimension of the human soul through the idea of the soul s drive for development which unfolds through the Goethean laws of polarity enhancement and metamorphosis He paints a profound picture of the higher aim of human life the soul s gradual liberation from physical bonds to become an organ for the I yet always balanced by the soul s inclination to become an organ for the body Along this unfinished journey toward a full human existence he describes the roles played by love by wisdom and by inner death and resurrection As van Emmichoven points out with this understanding of the soul it is clear that there is an area where psychology and a philosophy of life overlap and indeed cannot be entirely separated If we were to define how the understanding of the soul represented in this book is related to contemporary schools of thought there are three thinkers Herder Goethe and Steiner whose spiritual outlook has had a decisive influence The fact that none of these thinkers became particularly well known in this field is not so surprising if we take into account the comprehensive wisdom and spiritual depth which distinguish their works from the introduction This book is a translation from Dutch of De Menselijke Ziel 1946

Between Earth and Heaven Dawn Langman, 2021-11-10 In this third volume in The Actor of the Future series Dawn Langman continues to explore the integration of Steiner's research into speech drama and eurythmy with Michael Chekhov's acting methodology. Her advanced applications of all the basic processes allow the art of the actor and speaker to evolve beyond the soul and body paradigm still broadly accepted in contemporary culture to include dimensions of the spirit. The book contains a seminal analysis of comedy and tragedy showing how an understanding of their esoteric roots sprung from the Eleusis mysteries of ancient Greece deepen our appreciation and our ability to implement the practical suggestions made by Steiner and Chekhov to differentiate the fundamental styles A comprehensive exploration of the vowels in relation to planetary beings lays the foundation for many layers of artistic deepening and application Dawn Langman gifts us with yet another magnificent contribution to her book series developing an integrated acting technique based on the indications of

Rudolf Steiner and Michael Chekhov in which actors become the work of art Venturing even further into the deeper alchemical mysteries of the work Langman leads us into an imagination of future theatre that includes a genuine experience of the I AM the origin of comedy and tragedy Dante's Paradiso as example of how we can experience the planetary spheres in word and gesture and much more inspiring the unfoldment of actors of the future Dr Jane Gilmer actress and teacher author of The Alchemical Actor 2021 and former Assistant Professor of Drama VPA National Institute of Education Singapore In this present volume Dawn Langman continues her in depth exploration of the integration of Michael Chekhov's system of psycho physical awareness with Rudolf Steiner's indications for creative speech and eurythmy In so doing she genuinely models both teachers emphasis on experimentation and exploration absent the dogmatism sometimes associated with such work The careful conscious communication of her own advanced exercises created to develop this new methodology will be most effective when worked in conjunction with her previous books The Art of Acting The Art of Speech and The Actor of the Future Vols 1 2 Taken as a whole Langman reveals the degree of empathy and responsiveness possible not only between human beings but with all the manifold community of beings between earth and heaven Dr Diane Carracciolo Associate Professor of Educational Theatre Adelphi University USA **Principles of Spiritual Science** Carl Unger, 1998-10-20 This slim but challenging volume of three essays supports and extends the basis of Steiner's philosophical and anthroposophical thinking Students seeking a secure foundation in the supersensible realities of which Steiner speaks will find here a continuing source of inspiration Unger was asked by Steiner to work further with the spiritual scientific theory of knowledge Human Encounters and Karma Athys Floride, 1990-10 This This volume is the essence of what he did in this field marvelous book begins to unfold a path of community an interhuman spiritual path and shows how we can begin to regain the sacred in our everyday lives through an awareness of past and future karma our full humanity in our relationships with those around us Beginning with the moment before the encounter the author shows how from that moment on we can enter a process that parallels the Mass annunciation sacrifice transubstantiation and communion Drawing on Rudolf Steiner's many insights Floride shows us this social ritual as a profoundly spiritual path one perhaps closer to us than any other The second half of the book deals with this process of by encountering a poet through his work Taking Victor Hugo as his example Floride shows how profound such a meeting can be Learning to Experience the Etheric World Baruch Urieli, Hans Muller Wiedemann, 2000 Today our world is increasingly filled with feelings of movement and flux speed and a lack of sufficient time to do what needs to be done Life is marked by change upheaval and revolution The authors of this book suggest that amid this life of turmoil people are beginning to have conscious and semiconscious experiences of the etheric world of life forces Yet this growing sensitivity to the etheric realm only intensifies experiences of movement and upheaval To counter such feelings we must take hold of our inner life and strengthen the I our true self Featuring essays supplemented with a substantial amount of source material from Rudolf Steiner and other authors this book introduces us to methods for

strengthening one's essential self In particular we can learn to practice the ability to add to every physical perception whether of a stone a plant an animal or another person of the etheric reality associated with that entity This process leads us to become more aware of the after image We can also learn to become conscious within the etheric realm This work with the after image says Baruch Urieli is not an esoteric path but is rather an endeavor to bring the beginnings of a natural consciousness of the etheric to full conciousness and hence under the rulership of the ego Learning to Experience the Etheric World is an invaluable resource for inner development and the beginnings of spiritual sight The Inner Life of the Earth Paul V. O'Leary, Christopher Bamford, Robert A. Powell, Marko Pogačnik, Rachel C. Ross, 2008-08 We need changes in our attitudes our understanding of illness our acceptance of non allopathic practitioners the economics of how we pay for health care and our entire professional medical legal system in which medical boards often act within the law to protect and defend the guild of conventional medicine under the guise of scientific proof I present a template that combines economics psychology medicine physiology and mythology It can serve as support and quidance for making the changes necessary for a new model of medicine in the twenty first century Dr Robert J Zieve Dr Zieve presents a new paradigm for health care that shows us how to go beyond the limitations and severe deficiencies of our current sickness care system It embraces and synthesizes the emerging models of integrative medicine energy medicine and energy psychology into an effective and affordable approach to healing for everyone This guide is for both those wish to provide a more complete form of health care for their patients and also for those individuals who are prepared to make the necessary changes in daily life in order to initiate or maintain a movement toward healing This includes understanding the daily disciplines of a healing process the deeper psychological processes of illness and the creative arts in their therapeutic roles **Between Occultism and** Nazism Peter Staudenmaier, 2014-04-03 The relationship between Nazism and occultism has been an object of fascination and speculation for decades Peter Staudenmaier's Between Occultism and Nazism provides a detailed historical examination centered on the anthroposophist movement founded by Rudolf Steiner Its surprising findings reveal a remarkable level of Nazi support for Waldorf schools biodynamic farming and other anthroposophist initiatives even as Nazi officials attempted to suppress occult tendencies The book also includes an analysis of anthroposophist involvement in the racial policies of Fascist Italy Based on extensive archival research this study offers rich material on controversial questions about the nature of esoteric spirituality and alternative cultural ideals and their political resonance The Invisible History of the **Rosicrucians** Tobias Churton, 2009-09-09 The first complete historical and philosophical investigation into the invisible fraternity of the Rosicrucians Contains the latest research on the origins of the Rosicrucian movement Presents the ties between Rosicrucianism Freemasonry and the Templars Written by a perfected Knight of the Rose Croix and the Pelican 18th degree Ancient and Accepted Rite For nearly 400 years incredible myths and stories have been woven around the invisible Brothers of the Rose Cross the Rosicrucians It is said that they possessed the secret of man and God that they could turn lead into gold that they governed Europe in secret that theirs was the true philosophy of Freemasonry and that they could save or destroy the world In The Invisible History of the Rosicrucians Tobias Churton a perfected Knight of the Rose Croix and the Pelican 18th degree Ancient and Accepted Rite presents the first definitive historical and philosophical view of this mysterious brotherhood Starting at its beginnings in Germany in 1603 Churton unveils the truth behind the complex story that underlies the Rosicrucian movement He explains its purpose the motives of its earliest creators and the manifestos accidentally published in the 17th century that emerged at precisely the time when modern science was emerging He details the people who influenced its development including Johannes Kepler Robert Fludd and Sir Francis Bacon and the ties between the Rosicrucians Freemasons and Templars He also shows how Rosicrucianism shaped the mythology and spiritual consciousness of both North and South America and reveals that there are many Rosicrucian fraternities still active throughout the world today Aristotelians and Platonists Luigi Morelli, 2015-11-25 At the heart of this book is Rudolf Steiners culmination in the twentieth century or the convergence of the working of Aristotelians and Platonists for the renewal of culture And questions arise Where is the whole of the School of Michael at present How can we characterize and honor one and the other stream and avoid stereotypes and misunderstandings This work approaches the matter in its historical unfolding in three successive steps in which Steiner Aristotles and Plato Schrers incarnations form a thread The first tableau opens up in the previous Age of Michael in Greece when Plato and Aristotle inaugurated the work of the two Michaelic streams The second addresses the Middle Ages and centers around the contrast between Alain de Lille and Thomas Aguinas between the School of Chartres and Scholasticism Steiners and Schrers life tasks in the nineteenth century form the prelude to the present The heart of the book and its longest section looks at the present It contrasts the working of Aristotelians and Platonists in the natural sciences in psychology and in the social sciences From the ground of extensive observation and characterization it then turns to pressing questions What can Platonists learn from Aristotelians And how about the reverse Starting from the example of individuals meeting across the streams how can we extend this understanding so that it becomes an ongoing practice and a cultural concern How can Michaelic individuals and institutions work in ways that honor the whole of the Michaelic movement Emergent Holistic Consciousness Stuart P. Heywood, 2011 Natural Science underpinned the modern Darwinian theory of evolution physical Seeing Eye empiricism physical sensory mode Rudolf Steiner 1861 1925 philosopher scientist and educator introduced a Natural Science post modern understanding a physical spiritual Seeing Eye and connecting mind s I delicate empiricism spiritual physical non sensory mode underpinning and enhancing the theory of evolution For historic accuracy we trace Rudolf Steiner's quest to bring both these modes together modern natural scientific materialism the dragon and philosophical spiritual scientific knowledge that lights our path and enables a threefold exploration of our spiritual physical evolutionary development Spiritual invisible Physical visible The body soul divide body physical sensory mode soul spiritual non sensory mode Natural Science Nature and Super Nature

The use of the term super natural is very different from the way the word supernatural is commonly used and understood fantasy black magic Super natural here equates to Nature and Natural Science super natural phenomena are only natural phenomena presenting at a higher or super though still natural level Evolution Goethe's Naturphilosophie was a metamorphosis of Nature philosophy In this same way Steiner's Spiritual Science a higher form of Naturphilosophie conceived a purely active spiritual element a Meta transmutation had taken place Naturmetaphilosophie **Evil** Bruce McCausland, 2006-08 I have much more to tell you but you cannot grasp it now But when the Spirit of truth comes He will guide you into the whole truth for He will not speak on His own authority but will tell what is told Him and will announce to you the things that are to come John 16 12 13 Williams translation Coping with Evil addresses one of the most important topics for all humanity evil The menace of evil seems stronger today than ever before Can evil be defeated Do we have the courage even to look at its root causes Drawing on the spiritual investigations of Rudolf Steiner Sri Aurobindo and others and from his own inner work Bruce McCausland takes us on a fascinating journey into the hidden recesses of this very timely subject helping us understand and cope with today s events and our daily lives What is evil What is its source or sources How should we view evil and those who perpetrate it Using what he calls a holoscopic approach McCausland stresses the importance of how we look at a problem Traditional means no longer suffice and have proven inadequate to the task By its very nature evil is illusive and fraught with emotion These obstacles must be overcome if we are to succeed in examining this manifold menace in a meaningful productive manner But whatever we do we cannot ignore it The greatest evil it has been noted is indifference toward evil McCausland discusses the sources of evil in the form of spirit beings spiritual adversaries called Lucifer and Ahriman He explains how these two beings interact with each other and with humanity as the two extremes of evil with goodness in the center In the end we discover ways to deal with evil both as individuals and as a society In today's climate of fear and its exploitation on every side the question of evil has become an urgent matter of human survival Those who watch or read the news can use this guidebook to understand the forces at work behind daily events It guides the reader through the confusion caused by evil and toward inner freedom Paths of the Christian Mysteries Virginia Sease, Manfred Schmidt-Brabant, 2003 In recent decades there has been an upsurge of interest in the Camino the pilgrim's route to Santiago de Compostela in northern Spain But where does this fascination in the spiritual exploration of the Middle Ages come from and what is its significance Virginia Sease and Manfred Schmidt Brabant assert that we live in a time of spiritual quest discovery and change Humanity is becoming increasingly sensitive and primal memories are beginning to emerge in people s consciousness Within this dynamic context of inner transformation the Camino s historic importance is being reechoed in human souls Rudolf Steiner explained that people need to live not only with outer history but also with the esoteric hidden narrative behind it the history of the mysteries Today at the beginning of the twenty first century the authors suggest that it is increasingly necessary for us to live consciously with this veiled history of

humanity s continual search for communion with the divine world Based on long research and contemplation the authors present a survey of extraordinary breadth and depth Focusing on the spiritual history of humankind they begin with the cosmic origin of the Grail Mysteries and culminate with the suprasensory Michael cultus and the being of Anthroposophia Topics also include the school of Athens early Christian art and its Gnostic impulses the Grail initiation in northern Spain the role of the Cathars and Troubadours in the Manichean spiritual stream the Camino to Santiago de Compostela and the esoteric aspect of music for the pilgrims the Music of the Spheres and the Elders of the Apocalypse the Templars as emissaries of the Holy Grail the initiations of Christian Rosenkreutz and his relation to anthroposophical art the early Rosicrucian impulses in America and Europe and much more
