What is a case study?

A case study is an individual's story. It tells the reader how Save the Children's work has made a difference in the life of a child or his/her family.

1. Background: Please provide basic information about the interviewee(s).

Name(s), gender, age:	Mama Amina a Female aged 25 years
Location – village/town, district/province and country:	Mama Amina is a resident of Arbanqeramso location of wajir east constituency in Wajir County Northern Kenya.
Keywords – themes:	BEHAVIOUR CHANGE COMMUNICATION

2. Summary: Please describe the interviewee's day-to-day life and environment.

Amina hails from a very insolvent family which has put them in an abject situation and the kind of life they are living can't be compared to that of their neighbours since they never owned a source of wealth. She came to settle in Arbaqheramso in 2011 during the prolonged Horn of Africa drought that swept away their livestock. Her husband is a small scale herder and most of the time is absent from home looking after other people's shoats. They live in a small makeshift home.

3. The story: Interviewee's story in his or her own words. Please use exact words with direct quotes.

Amina who is a mother of two boys and one girl, is among the beneficiaries of the County Department of Health (CDH) and Save the Children Health and Nutrition integrated interventions as well as a member of a Mother to Mother Support Group (MTMSG) who has attended several health and nutrition promotion sessions and short trainings such as Participatory Hygiene and sanitation transformation (PHAST), Community Led Total sanitation (CLTS) and others that stimulated her mind to realize the importance of hygiene and sanitation as a preventive measure. She said, "I have been part of the communities triggered by Sub-County public health officers together with Save the Children staff and I feel that there is need to change." She said, "Our source of water is a shallow well and when it rains it usually floods and fills with water to the brim. However, we have been consuming the water without boiling thus our children and us becomes sick due to unhygienic conditions. My gratitude goes to Save the Children and the Health Department who have used their time and resources to empower us at the grass root level." Immediately after CLTS triggering in October 2014, Amina started to construct a pit latrine in her compound as she vowed never to go back to open defecation. On the completion of the latrine Amina welcomed her neighbours to share with her with no string attached to it but exhort them to construct one to elude slavery and advocate for Open Defaecation Free environment (ODF).

"Hooran kathitha ayaan isku ceelin jiray muusqull laan awgeed ,gumeerka ayaana eehanunu jiray waxana kacabsan jiray cuuthur kathitha xageed inn uu igudacaa lakkiin xada waan reystay maarkan musqushi distaay" Amina retorts. Case Studies in Applied Behavior Analysis for Individuals with Disabilities (2nd Ed.) Keith Storey, Linda Haymes, 2023-01-24

This book responds to a critical need for highly qualified personnel who will become exemplary professionals because of their advanced knowledge, skills and experiences in working with students and adults that have varying disabilities including Autism Spectrum Disorders (ASD). Since Board Certification for behavior analysts was introduced, there has been an expansion of training programs in Applied Behavior Analysis to meet the demands from school districts, health insurers and families. In spite of these developments, a case studies book has not been available that uses the Behavior Analyst Certification Board Task List Fifth Edition (BACB) guidelines for educating individuals receiving their BCBA or for those in the field such as teachers and service providers. The goal of this book is to fill that need. In this newly revised second edition, eighteen case studies are provided: case studies with complete analysis, case studies with partial analysis, and case studies without analysis. The first six cases present a complete analysis which allows the reader to analyze and develop a comprehensive Positive Behavior Support Plan containing detailed answers and supporting data systems. The second six case studies include the areas from the BACB Task List and the items are most relevant for analysis but the analysis is not complete. This enables the reader to complete the analysis themselves which will promote skill building. The final six case studies do not contain an analysis or guideline. This allows the reader to further develop their skills by creating their own guidelines for analysis and implementing their plan. The use of this text will improve

the comprehensive analysis and coverage of the developing supports for individuals with disabilities provide direct applicability to applied settings and the ability to use the case studies for assignments and or exams The format readability and detailed description of instructional methodology makes this text a valued resource for instructors and behavior analysts responsible for improving the skills of people with disabilities
