My name is Jeremy Maggi. I am a teacher at Orange Glen High School in Escondido, California. I am writing an autobiographical essay, a story about an event in my life and how it changed me. I am writing about a scary meeting I had with a rattlesnake when I was younger to show what I learned and to tell how this event was important to me.

It all happened one summer day in 1995 when I was ten years old. At that time, I was living in Valley Center, California with my parents and my brother. Our house was out in the country and there were many wild plants and animals, and I loved to go on walks with my father through the wilderness. On that day, my father, my younger brother, and I were taking a walk in the bushes outside my house. I wanted to lead, so I walked in front, my brother followed me, and my father was in the back. It was a beautiful day when we started walking; the deep blue sky was above us, the sun shined on us from over our heads, and all around you could hear the buzz of insects and the rustle of the wind on the leaves of the beautiful green bushes. I could smell the lovely smell of the summer flowers all around me.

Suddenly, and without warning, my father rushed to the front and pushed me aside. "Hey! What the heck!" I thought. But, just then, I heard a terrible buzz from where I had just been about to step. I looked and I saw a giant, red diamond-back rattlesnake in the path where I had been walking! His rattle was shaking and he was very angry. I could see his tongue flick in and out of his mouth. His narrow eyes looked at me. I felt my heart pounding in my chest. The cold wind blew on my sweating skin. Now I knew why my dad had pushed me.

We sat there for a while because we didn't want the snake to strike and attack us, and the snake stayed there, too, because he was afraid of us also. We called to our neighbor, Ken, who happened to be out, and he came with a shovel to kill the snake. Clang! With one hit he cut off the snake's head. Ken grabbed the snake by the tail and carried it back home, its blood still dripping on the ground. When he got home, he skinned it and ate it up. Yum! Everything turned out all right after all.

Even though it has been many years, this story still stays in my mind. I remember that day a lot, and I am thankful that my dad saved me from being bitten by the snake. I also learned that I should be more careful when I am walking out in the wild and treat animals with respect. That is why this was an important event in my life.

Comics and Stuff Henry Jenkins,2020-04-14 Considers how comics display our everyday stuff junk drawers bookshelves attics as a way into understanding how we represent ourselves now For most of their history  
comics were widely understood as disposable you read them and discarded them and the pulp paper they were printed on  
decomposed over time Today comic books have been rebranded as graphic novels clothbound high gloss volumes that can be  
purchased in bookstores checked out of libraries and displayed proudly on bookshelves They are reviewed by serious critics  
and studied in university classrooms A medium once considered trash has been transformed into a respectable if not elite  
genre While the American comics of the past were about hyperbolic battles between good and evil most of today s graphic  
novels focus on everyday personal experiences Contemporary culture is awash with stuff They give vivid expression to a  
culture preoccupied with the processes of circulation and appraisal accumulation and possession By design comics encourage  
the reader to scan the landscape to pay attention to the physical objects that fill our lives and constitute our familiar surroundings  
Because comics take place in a completely fabricated world everything is there intentionally Comics are stuff comics tell stories  
about stuff and they display stuff When we use the phrase and stuff in everyday speech we often mean something vague  
something like etcetera In this book stuff refers not only to physical objects but also to the emotions sentimental attachments  
and nostalgic longings that we express or hold at bay through our relationships with stuff In Comics and Stuff his first solo authored book in over a decade pioneering media scholar Henry Jenkins moves through anthropology material culture literary criticism and art history to resituate comics in the cultural landscape Through over one hundred full color illustrations using close readings of contemporary graphic novels Jenkins explores how comics depict stuff and exposes the central role that stuff plays in how we curate our identities sustain memory and make meaning Comics and Stuff presents an innovative new way of thinking about comics and graphic novels that will change how we think about our stuff and ourselves

Daniel Callahan,Sissela Bok,2012-12-06 A concern for the ethical instruction and formation of students has always been a part of American higher education Yet that concern has by no means been uniform or free from controversy The centrality of moral philosophy in the undergraduate curriculum during the mid 19th Century gave way later during that era to the first signs of increasing specialization of the disciplines By the middle of the 20th Century instruction in ethics had by and large become confined almost exclusively to departments of philosophy and religion Efforts to introduce ethics teaching in the professional schools and elsewhere in the university often met with indifference or outright hostility The past decade has seen a remarkable resurgence of the interest in the teaching of ethics at both the undergraduate and the professional school levels Beginning in 1977 The Hastings Center with the support of the Rockefeller Brothers Fund and the Carnegie Corporation of New York undertook a systematic study of the state of the teaching of ethics in American higher education
