

CIPS L4M1 - Question & Answer Past exam questions latest 2023/2023

Q1. Outline FIVE differences between purchasing goods and purchasing services.

Answer - 1. Goods are tangible, services are intangible:

2. Services cannot be separated from their supplier:

3. Heterogeneity: goods are usually uniform in nature while services are unique at each delivery

4. Services 'perish' immediately on delivery whereas goods can be stored until required

5. Products are easier to specify, being tangible

Q2. Explain THREE circumstances in which a competitive tendering exercise might not be the best approach to making a purchase. Answer - 1. Urgency

2. Commercial confidentiality or national security (e.g. military organisations):

3. Value of the purchase:

4. Production costs cannot be measured accurately:

5. Price is not the only criterion for supplier selection and contract award

6. Intellectual Property Rights and monopoly

Q2. Describe TWO e-sourcing tools and their use in procurement and supply.

Answer - 1. E-Catalogues

2. E-Tendering

3. E. Auction

4. Reverse Auctions

5. Online supplier evaluation data

Q3. Explain the role of a shared services unit (SSU). Answer - SSUs reflect a desire to centralise and share services

The shared service provider becomes a dedicated provider of services such as; finance, HR, IT and procurement which continue to be provided internally

An SSU manages costs and quality SLAs to demonstrate value for money.

An SSU's benefits may be summarised as:

- cost effective internal service;
- liaison with its customers;
- anticipating future demand;
- employing resources and providing higher levels of service more cost effectively than if they were provided by a department or an external provider.

Q3. A manufacturer of electrically powered tools for the engineering industry consists of four separate business units, each of which undertakes its own purchasing activities.

The Economics of Sustainable Development Gurudas Nulkar,2024-10-10 p This book is a machine generated literature overview that explores the interlinkages between communities both rural and urban and how they are dependent on natural resources and ecosystem services for livelihoods With increasing urbanization and changing land use sourcing food fuel and other basic needs from forests and grasslands is turning into a significant challenge especially in the developing world where they have to balance regional aspirations against the environmental impact and legacy for forthcoming generations As sources of sustainable livelihoods decline it affects their ability to overcome poverty Furthermore economic impacts on the natural capital can undermine the long term sustainability of communities and negatively affect their health and well being To ensure economic growth and sustainable livelihoods it is imperative to rethink how economic growth and agriculture can reduce their impacts on the natural environment How dowe integrate economic social and environmental aspects into our economy The book will discuss aspects of sustainable consumption conservation of ecosystems and biodiversity and making rural communities resilient to the impacts of climate change By recognizing the economic value of ecosystem services decision makers can better understand the benefits and costs of different land uses and resource management practices and make more informed choices that promote sustainable livelihoods and natural capital conservation The book will be a great resource for policy makers students of economics and sustainable development non governmental organizations working in this field and corporate managers who are responsible for allotting budgets towards corporate social responsibility programs

Advances in Materials and Pavement Prediction Eyad Masad,Amit Bhasin,Tom Scarpas,Illaria Menapace,Anupam Kumar,2018-07-16 Advances in Materials and Pavement Performance Prediction contains the papers presented at the International Conference on Advances in Materials and Pavement Performance Prediction AM3P Doha Qatar 16 18 April 2018 There has been an increasing emphasis internationally in the design and construction of sustainable pavement systems Advances in Materials and Pavement Prediction reflects this development highlighting various approaches to predict pavement performance The contributions discuss links and interactions between material characterization methods empirical predictions mechanistic modeling and statistically sound calibration and validation methods There is also emphasis on

comparisons between modeling results and observed performance The topics of the book include but are not limited to Experimental laboratory material characterization Field measurements and in situ material characterization Constitutive modeling and simulation Innovative pavement materials and interface systems Non destructive measurement techniques Surface characterization tire surface interaction pavement noise Pavement rehabilitation Case studies Advances in Materials and Pavement Performance Prediction will be of interest to academics and engineers involved in pavement engineering

Linear and Non-Linear Financial Econometrics Mehmet Terzioğlu, Gordana Djurovic, Martin Bojaj, 2021-03-17 The importance of experimental economics and econometric methods increases with each passing day as data quality and software performance develops New econometric models are developed by diverging from earlier econometric models with the emergence of specialized fields of study This book which is expected to be an extensive and useful reference by bringing together some of the latest developments in the field of econometrics also contains quantitative examples and problem sets We thank all the authors who contributed to this book with their studies that provide extensive and accessible explanations of the existing econometric methods

Finance for Sustainable Development in Africa Nicholas Mbaya Odhiambo, Erasmus Larbi Owusu, Simplicie Anutechia Asongu, 2023-07-18 Although a number of selected African countries have made efforts to implement various financial sector reforms many countries have not fully implemented the requisite reforms required for sustainable development Instead they have focused mainly on bank based financial reforms thereby neglecting market based financial reforms This study provides a one stop shop for understanding the history and evolution of the financial sector in Africa with a special focus on the sub Saharan region where the financial system in many countries is still at a relatively nascent stage The analysis is extensive and robust and starts from financial repression to financial liberalisation both internal and external and its role in sustainable development and poverty alleviation The book covers a range of important research issues pertaining to financial development in selected African countries including interest rate and exchange rate reforms the dynamics of bank based and market based financial development the role of the informal financial sector in sustainable development the finance growth nexus bank based versus market based financial sectors in Africa financial development and information and communication technology and financial development and gender equality among other topics The book also considers the relationship between the COVID 19 global pandemic and financial development and concludes by presenting a forecast of the future trends of financial and sustainable development on the African continent in general and sub Saharan Africa in particular The chapters are authored by prominent scholars and researchers in the field of finance and banking applied econometrics and development economics with a deep understanding and knowledge of financial development and the local situations in African countries This book provides crucial reference material for academics researchers policymakers and students of all levels and is a must read for anyone wishing to understand the nature of finance and sustainable development in Africa in relation to the rest of the world It covers African

countries but with more emphasis on the sub Saharan African region where the financial systems in many of the countries are still relatively underdeveloped *The World Bank Economic Review* ,2013 FinTech and Robotics Advancements for Green Finance and Investment Arslan, Muhammad,Faizulayev, Alimshan,2025-05-08 The convergence of FinTech and robotics is revolutionizing green finance and sustainable investment To combat climate change and promote environmental responsibility these technological advancements offer innovative solutions to mobilize ecofriendly initiatives Fintech enhances transparency accessibility and efficiency in green investment while robotics is driving automation in environmental monitoring clean energy infrastructure and smart resource management Together they are reshaping how financial institutions investors and governments approach sustainability paving the way for a more resilient data driven and environmentally conscious financial ecosystem FinTech and Robotics Advancements for Green Finance and Investment explores research on the latest technological developments This book investigates how these technological advances in the world of sustainable finance Covering topics such as sustainability green finance and technology this book is an excellent resource for business leaders practitioners academicians researchers and more Energy Research Abstracts ,1993
