Keep Getting Up Ann L. Standford Ph.D., 2008-09-04 Keep Getting Up is the first book of its kind to be written by a black woman career public servant. It's about her 40 year journey finding her identity and meaning for her life as a youngster and as an adult and then finding her place on the world stage as an ambitious and talented professional. In her sheltered environment her parents, her school teachers and the community in which she grew up in Kansas failed to prepare her for the truth of the Black Experience in America. When she stepped out onto the world stage at age 17 ready to make her mark on the world she crashed into the wall of racial discrimination that shattered her belief system and rocked her self confidence. A few years later in seeking employment she discovered institutional racism that circumscribed what she could do when and how she could do it. These new realities were almost life threatening. A setback for sure but for only a period long enough for her to educate herself about what life in America was all about for Blacks and the time it took to develop carefully crafted strategies to overthrow all racial barriers placed in her path. She triumphed over all obstacles to her success along her journey and rose to the top ranks in public service. This book is a must read particularly for those who are concerned about social justice for all in America. *Resources in Education*, 1999

*GCSE English results* Great Britain: Parliament: House of Commons: Education Committee, 2013-06-11 The 2012 GCSE English results prompted significant controversy which ultimately resulted in an application for judicial review. This report sets out the background to these events and identifies lessons to be learned. The problems with GCSE English can be traced back to the 2007/09 development phase of the qualification in particular the turbulence which resulted from the shift away from a mostly linear to a modular system combined with a high proportion of controlled assessment and generous marking tolerances. Exam board experts raised concerns at the time but these were not acted upon by the regulator the then interim Ofqual. Further difficulties arose because of pressures from the school accountability system. The problems experienced with GCSE English in 2012 highlighted serious weaknesses in the moderation of speaking and listening with consequences for grade awarding. The current status of Ofqual as an independent regulator accountable to Parliament is the right one. However the Coalition Government is bringing in wholesale changes to GCSEs and A levels to a tight timetable and at the same time Ofqual must have systems in place. The Committee is also concerned that there is a rush towards separate exam systems for England, Wales and Northern Ireland without careful reflection on what might be lost or consensus that this is the right thing to do. **T.C.
