**Wayward Mage** TJ Muir, 2025-06-26 For five hundred years the darkest of magics has lain dormant Remnants of that magic still lurk in the deepest corners of the world Some are beginning to stir again Kadaris expected long days of study when she began her apprenticeship at Finoren Instead her first assignment sends her deep into the wilds alone to investigate a series of strange disturbances in a remote unsettled corner of the realm What starts as a simple inquiry into vanishing livestock and odd accidents quickly unravels into something far more dangerous a secretive cult awakening forbidden magic with the power to upend the balance of the realm Kadaris still mastering her craft must navigate an unfamiliar land sift truth from deception and confront forces she barely understands The deeper she digs the more peril she finds and the more she begins to question the world she thought she knew The cult is growing The stakes are rising And her choices may alter the future of magic itself

**Lost Mage** TJ Muir, 2025-06-26 Five hundred years ago dangerous magic was unleashed on the world by ambitious mages Now something far older and more dangerous may have been discovered Chasing after the relic that was stolen from her Kadaris crosses the river to a region where magic is broken and forbidden Trying to locate the scepter she winds up in a secret prison questioned and tormented by guards who despise her for what she is A mage Broken out by an unlikely accomplice she manages to retrieve the relic from where it was safely hidden But half the city is searching for her and her allies plan to betray her Terrified and lost in a strange city she needs to find a way out of the city before she is hunted down and killed All without the use of her magic

*The Russian Image of Goethe, Volume 2* Andre von Gronicka, André von Gronicka, 2016-11-11 The two volumes of *The Russian Image of Goethe* constitute the only study in a Western language on Goethe's reception in Russia Volume II is a seamless continuation of the earlier book covering the second half of the

nineteenth century and the first two decades of the twentieth Von Gronicka examines the attitudes toward Goethe and his work of among others Turgenev Dostoevski Tolstoi and the Russian symbolists He draws on the Russian writers diaries letters and essays quoting from them extensively in faithful translation or felicitous paraphrase In developing The Russian image of Goethe von Gronicka traces the course of Russian literature in the nineteenth and early twentieth centuries and provides not only a clear idea of how Russian writers viewed Goethe but an excellent introduction to that literature Both volumes of The Russian Image of Goethe are of interest to scholars of Russian German and comparative literature THE POETICAL WORKS OF MATTHEW PRIOR. VOL: II. Matthew Prior,1784      **Chess Tactics - Volume 2** Carsten Hansen, The follow up to the internationally bestselling volume 1 Are you ready to seriously improve your game It has been said that chess is 99% tactics but whether that is an accurate reflection is hard to tell Nevertheless it is important But if you are like most players you only discover the tactics after you come home and run through your game with a chess engine So what to do In the present book you will be challenged 404 times but unlike most tactics puzzle books you don t know what your objective is do I need to find a mate find an opportunity skewer or pin a piece use a tactical turn to gain a positional advantage and how far do I need to calculate These questions are you are faced with when you play your own games and therefore this book tries to replicate this position Your one advantage over the players in the respective positions is that you know that there is supposed to be something in there for you to find The puzzles vary a lot in difficulty some are relatively easy some are incredibly difficult but most are somewhere in between However most of the puzzles are layered so that even when you think the answer is obvious it is worth looking further because your idea may be the decoy left there for you to get distracted from the actual solution Working through the puzzles and then carefully play through the thoroughly annotated solutions will help you to up your tactical radar as well as your calculation skills So if you are up for the challenge here is the opportunity to take the leap forward Good luck      **The Global Encyclopaedia of Informality, Volume 2** Alena Ledeneva,2018-01-17 Alena Ledeneva invites you on a voyage of discovery to explore society s open secrets unwritten rules and know how practices Broadly defined as ways of getting things done these invisible yet powerful informal practices tend to escape articulation in official discourse They include emotion driven exchanges of gifts or favours and tributes for services interest driven know how from informal welfare to informal employment and entrepreneurship identity driven practices of solidarity and power driven forms of co optation and control The paradox or not of the invisibility of these informal practices is their ubiquity Expertly practised by insiders but often hidden from outsiders informal practices are as this book shows deeply rooted all over the world yet underestimated in policy Entries from the five continents presented in this volume are samples of the truly global and ever growing collection made possible by a remarkable collaboration of over 200 scholars across disciplines and area studies By mapping the grey zones blurred boundaries types of ambivalence and contexts of complexity this book creates the first Global Map of Informality The accompanying database [www in formality com](http://www.informality.com) is searchable by

region keyword or type of practice so do explore what works how where and why Praise for Global Encyclopaedia of Informality The Global Informality Project unveils new ways of understanding how the state functions and ways in which civil servants and citizens adapt themselves to different local contexts by highlighting the diversity of the relationships between state and society The project is of great interest to policymakers who want to imagine solutions that are beneficial for all but sufficiently pragmatic to ensure a seamless implementation particularly in the field of cross border trade in developing countries Kunio Mikuriya Secretary General of the World Customs Organisation Brussels An extremely interesting and stimulating collection of papers Ledeneva's challenging ideas first applied in the context of Russia's economy of shortage came to full blossom and are here contextualized by practices from other countries and contemporary systems Many original and relevant practices were recognized empirically in socialist countries but this book shows their generality János Kornai Allie S Freed Professor of Economics Emeritus at Harvard and Professor Emeritus at Corvinus University of Budapest Alena Ledeneva's Global Encyclopedia of Informality is a unique contribution providing a global atlas of informal practices through the contributions of over 200 scholars across the world It is far more rewarding for the reader to discover how commonalities of informal behavior become apparent through this rich texture like a complex and hidden pattern behind local colors than to presume top down universal benchmarks of good versus bad behavior This book is a plea against reductionist approaches of mathematics in social science in general and corruption studies in particular and makes a great read as well as an indispensable guide to understand the cultural richness of the world Alina Mungiu Pippidi Professor of Democracy Studies Hertie School of Governance Berlin Transformative scholarship in method object and consequence Ledeneva and her networked expertise not only enable us to view the informal comparatively but challenge conventionally legible accounts of membership markets domination and resistance with these rich accounts from five continents This project offers nothing less than a social scientific revolution if the broader scholarly community has the imagination to follow through And by globalizing these informal knowledges typically hidden from view the volumes contributors will extend the imaginations of those business consultants movement mobilizers and peace makers who can appreciate the value of translation from other world regions in their own work Michael D Kennedy Professor of Sociology and International and Public Affairs Brown University and author of Globalizing Knowledge Don't mistake these weighty volumes for anything directory like or anonymous This wonderful collection of short essays penned by many of the single best experts in their fields puts the reader squarely in the kinds of conversations culled only after years of friendship trust and with the keen eye of the practiced observer Perhaps most importantly the remarkably wide range of offerings lets us de-parochialise corruption and detach it from the usual hyper local and cultural explanations The reader in the end is the one invited to consider the many and striking commonalities Bruce Grant Professor at New York University and Chair of the US National Council for East European and Eurasian Research     Everland Volume II R.
