Political Reform In Francophone Africa John F Clark, 2018-02-07 Most African states experienced only a few fleeting years of democratic rule after independence before succumbing to authoritarianism During the 1970s and 1980s Africans and Westerners alike came to view dictatorship to be as much a part of the region's social landscape as its grinding poverty Yet the end of the Cold War and the sharpening of the economic crisis at the end of the 1980s have breathed new life into campaigns for democracy in Africa shaking the foundations of many long standing autocracies In some cases dramatic transitions took place though the fate of the new democracies is far from certain This volume explores the origins and evolution of political reform movements in several states of francophone Africa The authors first make the case for the distinctiveness of francophone Africa based on the influences of colonial history language and France's contemporary role in Africa then survey the challenges of reform including the problems of transition from authoritarianism and consolidation of democratic regimes Case studies of thirteen former French and Belgian colonies follow organized by level of reform achieved peaceful regime change incremental reforms repressed reform efforts and reform in the midst of war **REASONING YCT EXPERT TEAM, RRB 2021 REASONING CHAPTER WISE SOLVED PAPERS** **Formal Peace and Informal War** Zoë Marriage, 2013-05-02 Northern interventions into African countries at war are dominated by security concerns bolstered by claims of shared returns and reinforcing processes of development and security As global security and human security became prominent in development policy Congo was wracked by violent rule pillage internal fighting and invasion In 2002 the Global and All Inclusive Peace was promoted by northern donors placing a formal peace on the mass of informalised wars

Formal Peace and Informal War Security and Development in Congo examines how the security interests of the Congolese population have interacted with those of northern donors. It explores Congo's contemporary wars and the peace agreed on in 2002 from a security perspective and challenges the asserted commonality of the liberal interventions made by northern donors. It finds that the peace framed the multiple conflicts in Congo as a civil war and engineered a power sharing agreement between elite belligerents. The book argues that the population were politically and economically excluded from the peace and have been subjected to control and containment when their security rests with power and freedom. **De**

Gaulle's Republic Philip Maynard Williams, Martin Harrison, 1979 **Ethnic Politics and State Power in Africa** Philip Roessler, 2016-12-15 Why are some African countries trapped in vicious cycles of ethnic exclusion and civil war while others experience relative peace? In this groundbreaking book Philip Roessler addresses this question. Roessler models Africa's weak ethnically divided states as confronting rulers with a coup/civil war trap: sharing power with ethnic rivals is necessary to underwrite societal peace and prevent civil war but increases rivals' capabilities to seize sovereign power in a coup d'état. How rulers respond to this strategic trade-off is shown to be a function of their country's ethnic geography and the distribution of threat capabilities it produces. Moving between in-depth case studies of Sudan and the Democratic Republic of the Congo based on years of field work and statistical analyses of powersharing coups and civil war across sub-Saharan Africa, the book serves as an exemplar of the benefits of mixed methods research for theory building and testing in comparative politics.

Reasoning Solved Papers YCT Expert Team, 2023-24 RRB Reasoning Solved Papers Africa's World War Gerard Prunier, 2008-12-31 The Rwandan genocide sparked a horrific bloodbath that swept across sub-Saharan Africa, ultimately leading to the deaths of some four million people. In this extraordinary history of the recent wars in Central Africa, Gerard Prunier offers a gripping account of how one grisly episode laid the groundwork for a sweeping and disastrous upheaval. Prunier vividly describes the grisly aftermath of the Rwandan genocide when some two million refugees, a third of Rwanda's population, fled to exile in Zaire in 1996. The new Rwandan regime then crossed into Zaire and attacked the refugees, slaughtering upwards of 400,000 people. The Rwandan forces then turned on Zaire's despotic President Mobutu, and with the help of a number of allied African countries, overthrew him. But as Prunier shows, the collapse of the Mobutu regime and the ascension of the corrupt and erratic Laurent-Désiré Kabila created a power vacuum that drew Rwanda, Uganda, Angola, Zimbabwe, Sudan, and other African nations into an extended and chaotic war. The heart of the book documents how the whole core of the African continent became engulfed in an intractable and bloody conflict after 1998, a devastating war that only wound down following the assassination of Kabila in 2001. Prunier not only captures all this in his riveting narrative but he also indicts the international community for its utter lack of interest in what was then the largest conflict in the world. *Africa's World War* is a gripping eyewitness account of the most bloody upheaval of recent times, a book of passionate and unblinking intensity that is our best record to date of one of the great tragedies of the post-Cold War era.
