**Anti-Christian Violence in India** Chad M. Bauman,2020-09-15 Does religion cause violent conflict asks Chad M Bauman and if so does it cause conflict more than other social identities Through an extended history of Christian Hindu relations with particular attention to the 2007 2008 riots in Kandhamal Odisha Anti Christian Violence in India examines religious violence and how it pertains to broader aspects of humanity Is religious conflict sui generis or is it merely one species of intergroup conflict Why and how might violence become an attractive option for religious actors What explains the increase in religious violence over the last twenty to thirty years Integrating theories of anti Christian violence focused on politics economics and proselytization Anti Christian Violence in India additionally weaves in recent theory about globalization and in particular the forms of resistance against Western secular modernity that globalization periodically helps to provoke With such theories in mind Bauman explores the nature of anti Christian violence in India contending that resistance to secular modernities is in fact an important but often overlooked reason behind Hindu attacks on Christians Intensifying the widespread Hindu tendency to think of religion in ethnic rather than universal terms the ideology of Hindutva or Hinduness explicitly rejects both the secular privatization of religion and the separability of religions from the communities that incubate them And so with provocative and original analysis Bauman questions whether anti Christian violence in contemporary India is really about religion in the narrowest sense or rather a manifestation of broader concerns among some Hindus about the Western sociopolitical order with which they associate global Christianity *The Anchor Bible: Romans* ,1964 The Anchor Yale Bible is a fresh approach to the world s greatest classic Its object is to make the Bible accessible to the modern reader its method is to arrive at the meaning of biblical literature through exact translation and extended exposition and to reconstruct the ancient setting of the biblical story as well as the circumstances of its transcription and the characteristics of its transcribers It is a project of international and interfaith scope Protestant Catholic and Jewish scholars from many countries contribute individual volumes and is an effort to make available all the significant historical and linguistic knowledge which bears on the interpretation of the biblical record It is aimed at the general reader with no special formal training in biblical studies yet it is written with the most exacting standards of scholarship reflecting
