Marshall, 2005-06-22 For scholars, graduates, and practitioners in the field of families and health, an overview of research related to couple, marital, and family influences on health. Editors Crane and Marshall Brigham Young University gathered contributions from specialists in disciplines including family studies, marriage and family therapy, nursing, and family medicine.

School Hazard Zone Pamela Althea Joyce, 2008 *School Hazard Zone: Beyond the Silence Finding a Voice* explores the dynamics that help to perpetuate minority academic underachievement. Through five years of journal entries, epiphanies, and inspirations, Pamela Althea Joyce presents an honest glimpse of undemocratic practices at an urban/suburban high school. She identifies variables associated with minority achievement, examines experiences of the individuals involved, ultimately reframes the achievement gap problem, and invites the reader to take a stand on the matter. From the perspective of a teacher preoccupied with the daily challenges of minority students, Joyce identifies positive and negative influences originating from self, school, and society which play a role in tilting the academic playing field to the disadvantage of underachieving students. She provides alternatives, offering do-now, low-cost suggestions and feasible long-term ideas for closing the achievement gap. The book will be enlightening for the general public, administrators, teachers, student teachers, parents, and all individuals concerned about the future of the American educational system.

Who Cares About Parents? Kim Price-Glynn, 2025-11-11 Who cares for parental caregivers? The short answer is parenting groups do. *Who Cares for Parents* examines how parenting groups collectively build and contribute significant

resources to form a broader care infrastructure for adult family caregivers with children This book looks at the content of care parenting groups provide for parents through comparative research including mothers fathers and nonbinary parents Cases include some of the most recognizable parenting groups in the United States some with vast networks of parent members numbering in the thousands or even millions like the Parent Teacher Association La Leche League and MOMS Club International The book also examines newer and perhaps less well known groups like the City Dads Group the Upper East Side UES Mommas as well as smaller sets of local dads groups and a babysitting co op Can parents in the contemporary United States secure some of the necessary resources to provide care not only for their children but also for themselves through parenting groups The evidence from this research suggests they can Parenting groups have a long history of organizing membership meetings education material resources and advocacy to provide for parents needs Parenting groups ideologies and practices often seek broad goals and sometimes include far reaching advocacy innovative solutions and possibilities for what Price Glynn calls strategic parenting and social change Alongside their successes however parenting groups also face challenges of producing narrow and temporary alliances exclusion and exacerbating inequalities Despite their many challenges Price Glynn remains hopeful about the possibilities for non familial and collective care infrastructure like that performed by parent groups *Parents' Magazine & Better Homemaking* ,1929 America s 1 family magazine

TARGET ,2007 *Leadership and Management of Programs for Young Children* Cynthia Shoemaker,1999 The only early childhood administration book on the market that emphasizes the role of leadership and the importance of program planning in the administration process Adds necessary chapters on medically related issues in early childhood and legally related issues in early childhood Includes material on Developmentally Appropriate Practice DAP and other new curricula Contains numerous activities at the end of the book For Educators and Social Service Workers in programs for young children including Headstart **Trust in Schools** Anthony Bryk,Barbara Schneider,2002-09-05 Most Americans agree on the necessity of education reform but there is little consensus about how this goal might be achieved The rhetoric of standards and vouchers has occupied center stage polarizing public opinion and affording little room for reflection on the intangible conditions that make for good schools Trust in Schools engages this debate with a compelling examination of the importance of social relationships in the successful implementation of school reform Over the course of three years Bryk and Schneider together with a diverse team of other researchers and school practitioners studied reform in twelve Chicago elementary schools Each school was undergoing extensive reorganization in response to the Chicago School Reform Act of 1988 which called for greater involvement of parents and local community leaders in their neighborhood schools Drawing on years longitudinal survey and achievement data as well as in depth interviews with principals teachers parents and local community leaders the authors develop a thorough account of how effective social relationships which they term relational trust can serve as a prime resource for school improvement Using case studies of the network of relationships that make up

the school community Bryk and Schneider examine how the myriad social exchanges that make up daily life in a school community generate or fail to generate a successful educational environment The personal dynamics among teachers students and their parents for example influence whether students regularly attend school and sustain their efforts in the difficult task of learning In schools characterized by high relational trust educators were more likely to experiment with new practices and work together with parents to advance improvements As a result these schools were also more likely to demonstrate marked gains in student learning In contrast schools with weak trust relations saw virtually no improvement in their reading or mathematics scores Trust in Schools demonstrates convincingly that the quality of social relationships operating in and around schools is central to their functioning and strongly predicts positive student outcomes This book offer insights into how trust can be built and sustained in school communities and identifies some features of public school systems that can impede such development Bryk and Schneider show how a broad base of trust across a school community can provide a critical resource as education professional and parents embark on major school reforms A Volume in the American Sociological Association s Rose Series in Sociology
