The Paradox Planet Larry Light, Joan Kiddon, 2017-07-18. Beginning with the Age of We in the 1950s and moving to the Age of Me to today, the Age of I, this book examines how polarization and anger has changed how companies must manage their brands. Larry Light and Joan Kiddon, the leaders of Arcature LLC consultants in brand management, examine societal changes and global, local, and personal forces through the lens of marketers. They explain how to leverage paradox promises into brand focused strategies and actions that create a pathway to profitability, create extraordinary brand experiences for individuals and communities, and build strong brands in a world of contradictory needs and benefits. In today's world, people want their individuality to be recognized but they also want to belong to a group that shares their distinctiveness. People want to be independent and interconnected, which is the underlying paradox affecting how we make decisions today. Navigate how to satisfy conflicting needs and look beyond single minded solutions with the insights and guidance in *The Paradox Planet*.

Biomedical Visualisation Paul M. Rea, 2020-07-01. This edited book explores the use of technology to enable us to visualise the life sciences in a more meaningful and engaging way. It will enable those interested in visualisation techniques to gain a better understanding of the applications that can be used in visualisation, imaging, and analysis, education, engagement, and training. The reader will be able to explore the utilisation of technologies from a number of fields to enable an engaging and meaningful visual representation of the biomedical sciences with a focus in this volume related to anatomy and clinically applied scenarios. All chapters in this volume feature collaborative and innovative postgraduate research projects from graduate students of the MSc Medical Visualisation and Human Anatomy. This pioneering world leading postgraduate taught degree program is a joint partnership degree between the School of Life Sciences within the College of Medical, Veterinary and Life Sciences in the University of Glasgow and the School of Simulation and Visualisation The Glasgow School of Art.
