

2.0 TITLE & TEXT PAGE FORMAT

■ The title page is condensed in final manuscripts. Since the paper is to be read rather than typeset the title page should carry as much information about the content as possible. The title and author share the page; the abstract and author note for conference papers. The date is added to a published article by the journal; here it must be added by the author. Keywords to aid online search retrieval are now added after the abstract.

Page Headers. Copy manuscripts carry a running head on every page. This becomes the page header in college papers. The running head for publication is an abbreviated short title header--no more than 50 characters--that will be placed at the top of each page when the paper is published in a journal. It is omitted from the title page of college papers where it is redundant, and set in heading caps to conform with other headings in the paper (it is placed in full caps when writing for publication).

Page Numbers. The APA Manual (2001) once noted that "the position of page numbers on the first pages . . . may differ from the position of numbers on other pages" (p. 326). On the title page of college papers the page number is relocated to the bottom center of the page.

2.1 TITLE PAGE

■ The old APA Manual (2001) noted: "If the paper is to receive masked review, also place the author note on the title page, following the bylines and affiliations. The journal editor will remove the title page before sending the manuscript out to reviewers" (p. 296). For this reason, the abstract is placed on a separate page. Since final manuscripts are not intended for anonymous review, it is sensible to add the abstract to the title page along with the author note as a convenience to the reader.

<p data-bbox="382 811 772 868">The Title Is Centered in a Bold Font in Heading Caps and Single-Spaced on the Page</p> <p data-bbox="450 882 705 939">Author M. This is a good format for students, especially graduate students, to emulate in their work. An abstract is a brief concise description of the research: what you were looking for, why, how you went about it, and what you found. Absent an abstract, proportion the title and author block on the page. Abstracts to articles published in APA journals are set in <i>italics</i>, a feature not specified in the APA Manual, though perhaps appropriate for conference papers.</p> <p data-bbox="1004 1096 1420 1110"><i>Keywords:</i> APA style, page format</p> <p data-bbox="952 1125 1593 1175">[Acknowledgement] The author wishes to thank Abby Scribe for her brilliant insights.
