Contract for the International Carriage of Goods by Road Chiara Tincani, 2022-08-31

This book discusses the intensification of international transport services as the consequence of an increasingly capillary economic integration. In particular in some European countries such as Belgium the Rhine area of Germany and Denmark the application of the Geneva Convention on the carriage of goods from the case law point of view is even more thorough than that of national law. Even though this is not the case for all countries the Geneva Convention is a core text both for the scientific debates on the issue and for commercial operators. Therefore proposing an up to date reading of the Convention is of utmost importance from the practical point of view especially considering that thanks to the consistent application of the International Carriage of Goods by Road contract the Convention has become an essential prerequisite for the development of traffic. In ten chapters this book reviews the Convention's structure and considers the case law approaches and trends of most countries belonging to the European Union. It covers contracts and different negotiating models as well as compensation liability of the carrier and damages.

Sketches of Ceylon and India Narayan Prasad, 2020-04-30 Sketches of Ceylon and India From the Travel Notes of a Russian is the English translation a long felt desideratum of the report originally written in Russian and published in 1878 by Professor Ivan Minayev on his first trip to Ceylon India and Nepal in 1874-75. Of the three foreign trips the first trip of Ivan Minayev to the East is particularly interesting for Orientalists. This trip was important both for the scholar himself and for the development of Indology as a whole. This report contains not only detailed information on archaeological discoveries and description of architectural and historical monuments but a spate of interesting observations and conclusions related to the daily life of the peoples inhabiting these countries. Minayev's personal pieces of evidence of those distant times based on the stable academic foundation unlike various contemporary travelogues that abound in distorted judgments and biased observations are indeed very rare and hence one cannot overestimate their value.
