Linguistics and Language Behavior Abstracts ,2008-02 *The First Year at School: An International Perspective* Peter Tymms,Tiago Bartholo,Sarah Howie,Elena Kardanova,Mariane Campelo Koslinski,Christine Merrell,Helen Wildy,2023-06-26 This book explores an under researched but vital part of education the first year at primary elementary school The work shows that children s progress varies enormously from school to school class to class and child to child This variation is important because the more progress that children make in that first year of school the higher their academic attainment at the end of compulsory schooling The iPIPS international Performance Indicators in Primary Schools project

upon which this book is based has been able to provide deeper insights into some of the key issues within and across different contexts whilst highlighting new and some ongoing issues Despite all the work there remain unanswered or new puzzling issues which are also explored We need to know how to improve the education at that stage and more broadly we need greater clarity about when children should be taught to read and be introduced to formal arithmetic in other words when they should start school We also need to be clearer about whether when and how young children should be assessed The book will suggest some answers but it will raise important questions and dilemmas for which we do not as yet have answers

Conference Papers ,1984 Cultural Perspectives on Reproductive Health Carla Makhoul

Obermeyer,2001-08-23 This volume brings together studies carried out in a variety of contexts to explore the relevance of the notion of reproductive health and the role of culture in shaping its diverse manifestations The perspective that guides the collection is informed by anthropological and sociological research on the body pluralism and medicalization and by recent debates regarding women s health and the need to reconcile global agendas and local conditions The fourteen chapters provide views of how reproductive health is viewed by women and men in different parts of the world mainly at the level of local communities in India Egypt Mexico Kenya and South Africa but also in centres of power in China and Iran and in modern and post modern settings of the North and Far East The methodological approaches used by authors are varied but all share a concern with the perceptions decisions and rationalizations that surround health and reproduction A central theme is the correspondence between professional and lay models of reproductive health and some chapters explicitly seek to uncover the logic of practices that appear irrational from a biomedical point of view By analysing behaviour from the perspective of the actors themselves they show the relevance of local notions for understanding the factors that constitute risks for reproductive ill health including conditions of material deprivation constraints in seeking care and inappropriate use of therapies and technologies Cultural Perspectives on Reproductive Health illustrates complex processes of negotiation adaptation and manipulation in the formulation of ideas and policies related to reproductive health through analyses of such topics as the state s discourse on population religious constraints on abortion care professional and legal policies on reproductive technologies health professionals response to violence and the dilemmas that emerge from the new diagnostic and genetic techniques It also invites reflection on the societal construction of rights across cultures and on the place of cultural explanations in analyses of reproductive health
