There are two primary goals that this book wishes to achieve 1 Reliability through redundancy of design that is not
dependent upon the capability of the rest of the system and 2 the maximum security achievable for our highly classified
facilities that we are dependent upon for our survival In order for each chapter to be a stand alone entity in some cases
repetitive material found in other chapters is included to facilitate continuity Hence you won t have to go to other chapters
and sub heading to keep you abreast of the current material There are two chapters 7 and 9 that have specific items
identified for civilian government contractors who perform overseas work at our embassies chancelleries and military
