**New Jersey Register** ,2016 **The University We Need** Warren Treadgold,2018-07-10 Though many people know that American universities now offer an inadequate and incoherent education from a leftist viewpoint that excludes moderate and conservative ideas few people understand how much this matters how it happened how bad it is or what can be done about it In The University We Need Professor Warren Treadgold shows the crucial role of universities in American culture and

politics the causes of their decline in administrative bloat and inept academic hiring the effects of the decline on teaching and research and some possible ways of reversing the downward trend He explains that one suggested reform the abolition of tenure would further increase the power of administrators further decrease the quality of professors and make universities even more doctrinaire and intolerant Instead he proposes federal legislation to monitor the quality and honesty of professors and to limit spending on administration to no more than 20 percent of university budgets Harvard now spends 40 percent Finally he offers a specific proposal for the founding of a new leading university that could seriously challenge the dominance of Harvard Princeton Yale Stanford and Berkeley and attract conservative and moderate faculty and students now isolated in universities and colleges that are either leftist or mediocre While agreeing with conservative critics that universities are in severe crisis Treadgold believes that the universities problems largely transcend ideology and have grown worse partly because disputants on both sides of the academic debate have misunderstood the methods and goals of higher education
