## **Past Paper For Civic Education In Zambia:**

**Citizenship Education and Social Development in Zambia** Ali A. Abdi, Edward Shizha, Lee Ellis, 2010-06-01 Zambia the butterfly shaped central African country has a population of about 11 million people and as other Sub Saharan African countries has been trying to democratize since the early 1990s Clearly though the promise of political reform did not fulfill the expectations of the public and with about 60 percent of the population living below the poverty line many Zambians are no longer confident that more open political systems can improve their lives But the problem may not be inherent in the political process itself and could be found more in the apparent disconnection between people's needs and the way the country's affairs are run It is with respect to these and related issues that this book emphasizes the crucial relationship between education and political participation and specifically highlights citizenship education as essential for Zambia's social development Social development which should comprise inter alia the economic political and cultural wellbeing of societies can be enhanced by citizenship education which focuses on elevating people's understanding of their rights and responsibilities vis vis government institutions structures and functions Indeed it is the centrality of the political component in people's lives especially its relationship with public policy and public programs that should underline the important role of citizenship education In describing these issues the book analyzes the role of the media women's groups and youth in enhancing the political educational and by extension the economic lives of the Zambian people The book should interest students and scholars of Zambian as well as African education politics and social development It should also be useful for policy makers institutional managers and both public and para public leaders in Zambia and elsewhere in the continent

the Domestic Level Christof H. Heyns, Frans Viljoen, 2002-01-30 OVERVIEW OF STUDY RESULT      Research in Education, 1971-12      **Resources in Education**, 1999      **Postcolonial Legality: Law, Power and Politics in Zambia** Jeremy Gould, 2023-03-24 This book interrogates the ideology and practices of liberal constitutionalism in the Zambian postcolony. The analysis focuses on the residual political and governmental effects of an imperial form of power embodied in the person of the republican president termed here prerogativism. Through systematic long term ethnographic engagement with Zambian constitutionalist activists lawyers judges and civic leaders the study examines how prerogativism has shaped the postcolonial political landscape and limited the possibilities of constitutional liberalism. This is revealed in the ways that repeated efforts to reform the constitution have sidelined popular participation and thus failed to address the deep divide between a small elite stratum from which the constitutional activists are drawn and the marginalized masses of the population. Along the way the study documents the intimate interpenetration of political and legal action and examines how prerogativism delimits the political engagements of elite actors. Special attention is given to the reluctance of legal activists to engage with popular politics and to the conservative ethos that undermines efforts to pursue a jurisprudence of transformational constitutionalism in the findings of the Constitutional Court. The work contributes to the rising interest in applying socio legal analysis to the statutory domain in postcolonial jurisdictions. It offers a pioneering attempt to deconstruct the amorphous and ambivalent assemblage of ideas and practices related to constitutionalism through detailed ethnographic interrogation. It will appeal to scholars students and practitioners with an interest in theorizing challenges to political liberalism in postcolonial contexts as well as in rethinking the methodological toolbox of socio legal analysis.      *Handbook of Research on Promoting Global Citizenship Education* Keengwe, Jared, 2022-02-18 A global citizen is an individual who believes in a public responsibility for their local community to grow and interconnect amongst the world's diverse people and things. ### **Zionist Israel and Apartheid South Africa**

Amneh Badran, 2009-09-10 This book is a comparison of two ethnic national apartheid states South Africa and Israel which have been in conflict and how internal dissent has developed In particular it examines the evolution of effective white protest in South Africa and explores the reasons why comparably powerful movements have not emerged in Israel The book reveals patterns of behaviour shared by groups in both cases It argues that although the role played by protest groups in peace building may be limited a tipping point or magic point can become as significant as other major factors It highlights the role played by intermediate variables that affect the pathways of protest groups such as changes in the international system the visions and strategies of resistance movements and their degree of success the economic relationship between the dominant and dominated side and the legitimacy of the ideology in power apartheid or Zionism Although the politics and roles of protest groups in both cases share some similarities differences remain Whilst white protest groups moved towards an inclusive peace agenda that adopts the ANC vision of a united non racial democratic South Africa the Jewish Israeli protest groups are still by majority entrenched in their support for an exclusive Jewish state And as such they support separation between the two peoples and a limited division of mandatory Palestine Eretz Israel This timely book sheds light on a controversial and explosive political issue Israel being compared to apartheid South Africa
